PRESIDENT WILL ADVISE CONGRESS

Plans a Statement to be Made Public on Japanese Situation.

CONFERENCE HELD AT WHITE HOUSE

Chinese of California Now in Arms at Favoritism Shown Japan.

Washington, Feb. 8.—As the result of an importance conference on the Japanese situation at the white house today, President Roosevelt will give to the house another statement for publication tomorrow morning. The meeting was participated in by Senator Flint, Representative Kahn and Inter State Commerce Commissioner Lane, of California.

The conference was not a long one and at its conclusion the Californians declared that their mouths had been closed by the president who had asked them to say nothing as he intended to make a statement. The state department officials also declared that they could not talk.

The fact that the state department was represented in the conference has excited more speculation than any other feature and caused the belief that certain representations have been made by Japan as to how she regards possible legislation in California. Intimation was conveyed that important messages have been received from Ambassador O'Brien, our representative at Tokio, portraying the feeling there. In reply to inquiries along these lines Secretary Bacon declined to talk.

SENATE POSTPONES ACTION.

Sacramento, Cal., Feb. 8.—The senate decided today to postpone until Thursday any discussion of the report of the committee on legislative communication regarding anti-Japanese legislation. The report, which was based on the recent message of Governor Gillett, advising against anti-Japanese legislation, was submitted last week and placed on file.

CHINESE ARE INDIGNANT.

San Francisco, Feb 8.—The reopening of the fight over the passage of the anti-Japanese bills in the lower house of the California legislature will begin today and it is expected that the struggle will be even more intense than it was last week, when the struggle was terminated by the dramatic appeal of Speaker Walter Stanton for delay.

The latest complication in the controversy, which has two nations by the ears, is the preparation, according to a morning paper of this city, by the local Chinese of a statement com

JEROME WANTS THE WHOLE ROAD OR NONE AT ALL

In No Speed Contest for Indictments in Panama Canal Libel.

New York, Feb. 8.—William Nelson Cromwell, who was counsel to the Panama Canal company of France, the rights of which were purchased by the United States government, was a witness before the federal grand jury today in the proceedings against the New York World and others in connection with alleged libelous publications regarding the Panama canal purchase. It was expected that Mr. Cromwell's testimony would be in lines of a statement which he made public on December 10 last, in which he declared neither he nor any one connected with his law firm had any stock in the Panama Canal company, that he was positive no man in public life in America had any pecuniary interest in the canal, and that Douglas Robinson and Charles P. Taft had no connection with the Panama Canal matters.

Mr. Cromwell was under examination during the entire three hours' session.

United States District Attorney Stimson said today that if any indictments are found by the present grand jury they will have to be handed down by March 8th, which was the date on which the jury sitting would end.

When District Attorney Jerome was asked today if he had dropped the Panama investigation he said:

"I am not going to enter into any speed contest to get the indictment in this case, and until I hear from the attorney general that I am to have the precedence in this prosecution I shall take no steps."

WILL TAKE A SOAK AT UNCLE JOSEPH

House Insurgents Plan to Start Row on the Rules Tomorrow.

TO LIMIT POWER OF THE SPEAKER

Important Measure Relating to Railway Rates Will be Introduced.

Washington, Feb. 8.—The house "insurgents," who are agitating a change in the rules governing that body, will introduce a resolution tomorrow providing for radical changes which are proposed to limit the power of the speaker. The resolution will be signed and jointly introduced by all of those who have come out against the present rules and these claim that many more have expressed their intention of helping the movement. Because of the plank in the democratic platform in the recent presidential campaign, which pledged the party in favor of a change in the rules of the house, the "insurgents" are counting on the air of the minority members, although they claim that no effort to join forces has been made.

The changes proposed by the resolution would make it impossible for the speaker to be a member of any standing or conference committee. The speaker is now a member of the committee on rules, to which the resolutions will be referred. It also takes from the speaker power to appoint the standing committees, this power being given to a committee on rules and committees. The latter committee is created to consist of fifteen members, nine of whom shall belong to the party having a majority. The members from each group shall select their representation on the committee on rules and committees.

Tuesday of each week is set aside as "calendar Tuesday," for consideration of business of the various standing committees consisting of bills, which have been previously reported.

RAILROADS MUST SHOW 'EM.

Washington, Feb. 8.—Railroad companies must show that changes in rates or rules and regulations proposed by them are just and reasonable before being able to put such changes in effect if the bill which has been introduced by Representative Needham, of California, is enacted into law.

The bill amends the act to regulate commerce so as to give the shippers every opportunity to receive fair treatmen with regard to increases in rates. By its provision t he interstate commerce commission in its discretion may issue an order continuing the existing rates and rules whenever changes are proposed, until a hearing has been held and a decision rendered by the commission.

The amendment gives the shippers the right to file a protest against any proposed changes within thirty days after the notice of such changes has been forwarded to the commission by the railroads. The commission may then issue a continuing order until the lawfulness and reasonableness of the proposed changes have been determined.

MUST ACT QUICKLY.

City Precinct Committeemen to Be Chosen Before March 1.

Secretary L. S. C. Schroeder, of the democratic county central committee, today called attention to the fact that under the law precinct committeemen for the city campaign organizations must be chosen between January 1 and March 1. Less than three weeks remain in which to form the organizations, and so far as can be discerned neither party has made a move toward it. Precinct committeemen elections must be held by each party separately, unlike the voting at the primaries or at the elections, where all the voting in each precinct is done at a single voting place.

CANDIDATE FOR ALDERMAN.

Attorney Morton Mergentheim Making Race in Chicago.

Attorney Morton Mergentheim, of Chicago, son of Mr. and Mrs. A. Mergentheim, of this city, is a candidate for election to the city council in Chicago, and his chances are regarded as unusually favorable. Mr. Mergentheim is vice president of the Iroquois club and is taking an active part in Chicago politics.

INDIANA MINERS VOTING.

Terre Haute, Ind., Feb. 8.—The miners of district eleven, the bituminous field of Indiana, to the number of 16,000, began voting today by secret ballot in the 160 lodges for district officers. There is an unprecedentedly long list of nominees and it is probable several officers will have to be filled by the district convention, March 8th, because no one candidate had received a majority.

Newark Justice of Peace, Who Was Murdered, Woman Who Claims To Be First Wife, and Their Children, and Nurse Held as Witness

While funeral services were being held over the body of Frank Wilhelm, who was murdered in his home, at No. 448 High street, Newark, N. J., and in connection with whose death his wife, Mary, and Nicholas Sica are held prisoners, a second woman bent over the coffin and positively identified the dead man as her husband and the father of two children, who are living with her at No. 227 East Eighty-third street, this city. She declared that he had deserted them twelve years ago. When the woman who is under arrest was told of this unexpected development in the case she said the story was probable true. Wilhelm had told her he had been married in New York before he met her, but did not go into details, and she assumed that he had been divorced or was a widower. Once, when they were talking of adopting a child, she said, he remarked laughingly that he had two children whom they might get, but she did not think he was in earnest. In giving corroboration the woman, who has already declared that she loves her fellow prisoner, and had been hoping that something might happen so that she could marry him, betrayed not the slightest feeling.

PERKINS SORE OVER THE PRESIDENT'S ATTACK

California Senator Plans to Reply from Floor of Senate.

Washington, Feb. 8.—In view of the attack which President Roosevelt has made upon Senator Perkins, the senior senator from California, for his attitude on the Japanese agitation in his state, friends of the senator believe that he will defend himself on the floor of the senate. So far Senator Perkins has not intimated what his course will be. He consulted with several senators on the subject today. It is urged that while there may be a difference of opinion between the senator and his colleague as to the rights of a state to take certain action regardless of treaties entered into by the federal government, he will receive strong support on account of the disapproval among the senators of an attack upon one of their number by the executive at this time.

Criticism is Unwarranted.

Senator Perkins claims that the criticisms of his attitude on the naval program is unwarranted.

"In 1893," he explains, "I became a member of the senate naval affairs committee. At that time we did not have a single battleship in commission and few first-class cruisers. Today we have twenty-seven battleships in commission and five in course of construction, in addition to the fleet of first-class cruisers, torpedo boats and other modern vessels of war.

"The appropriation for 1893 was only $23,000,000 for the support and building of the navy and everything else. The naval bill now pending in the senate carries more than $135,000,000.

"In 1893, we had but 10,000 sailors and marines. Today we have about 45,000 sailors and marines.

Always for Naval Increase.

"I have voted for every increase in the naval appropriation that has come before the committee, with the exception of the last proposition to build four battleships in one year, which I did not think expedient, believing it the part of wisdom and wise business policy to profit by our own experience and the mistakes in naval construction of other countries.

"As a verification of what I say I would refer to the congressional record, which records every vote for and against any pending measure."

CUTSHALLS HAVE SON.

Fort Wayne friends of Mr. and Mrs. Frank H. Cutshall, formerly of this city but now residing in South Bend, have been advised of the birth on Sunday of a son to Mr. and Mrs. Cutshall.

WILL HAVE SESSION IN FORT WAYNE SATURDAY

Interstate Commerce Commission is Coming to Hear Testimony.

That the interestate commerce commission will hold a session in Fort Wayne next Saturday, February 13, became known to government officials here today when Deputy United States Marshal Walter received directions to have the federal court room placed in readiness for the coming of the commission.

No information is given out as to either the cases to be heard or the members of the commission who will be present. Local railroad attorneys said today they had not been advised of any cases which were to come up. S. Bash & Co. have a petition before the commission for a hearing in the matter of rates on phosphate rates from the fields in Tennessee, and doubtless other Fort Wayne shippers have matters which they desire the commission to pass upon.

The only previous session of the commission in Fort Wayne was held something like two years ago, Judge Clements presiding.

RECORD IS ALL MADE.

Justice Returned Aldrich Marriage Certificate on Time.

Clerk Joseph N. Mason received from Justice Will S. Steward, of Muncie, this morning a marriage license issued Nov. 14, 1900, to George W. Aldrich and Alvina DeLong and a story to the effect that no record had been made of the marriage was exploded.

Deputy Clerk John Belot found that Justice Morgland, of Muncie, who performed the ceremony, had made the proper return and that the couple had failed to call for their license, which was left in the squire's desk when he went to California. The record is all complete.

GERMAN FLOODS SUBSIDING.

News From Affected Districts Is More Reassuring.

Berlin, Feb. 8.—News from the flood districts is more reassuring. The Rhine is no longer rising at Cologne and no further damage is anticipated there, but at Frankfort the Main is still rising rapidly and the streets are flooded for a considerable distance from the water front. Dresden reports that the danger has passed.

Reports of great damage to property, especially on the confluences of the middle Rhine, are coming in. The damage was heaviest in the Wied valley, where many villages suffered severely.

RAINS SWELL TINY STREAM TO BIG FLOOD

Los Angeles Suffers from a Freshet That Carries All Before It.

Los Angeles, Cal., Feb. 8.—Running at flood tides, its angry waves foam-capped and swirling from bank to bank, the Arroyo Seco, fed by heavy rains from mountains and foot hills, is grinding its path to the sea, tearing away all obstructions to its course. Four bridges, numberless fences, outhouses and buildings, a dozen bulkheads and heavy mattresses have been taken as toll by the stream that but a day or two ago was a purling brook.

The main line and Glendale branch bridges on the Salt Lake route, the big steel and concrete bridge on the main line of the Santa Fe and the Pasadena avenue bridge of the Pacific Electric line were washed out last night, although the latter, held by its cantilever trusses, is still passable for light cars.

On the city bridges at avenues 26 and 43 and the big bridge at Pasadena avenue danger signals are posted to prevent vehicles passing over.

The big Santa Fe bridge at avenue 35 sank beneath its own weight and sagged in the center fully eighteen inches, making it dangerous for the passage of trains. This resulted in the holding up of the overland limited outside of the city and the transferring of its passengers to Newton by street cars and automobiles.

ACTRESS DIES OF POISON.

American Girl Studying in London Gets Overdose of Chloride.

London, Feb. 8.—Margaret Von Hollister, an American woman, who was studying for the stage, died in London yesterday from an overdose of chloride. At an inquest held today the verdict was "death by misadventure," as there was no evidence to show the woman intended to commit suicide. Nothing has developed to identify Mrs. Von Hollister beyond the fact that she said she was the widow of an American lawyer. It is said all her relatives are in America.

SPENT SUNDAY HERE.

Special Guager Ligget Much Pleased With New Position.

James Ligget, recently appointed a special guager in the United States internal revenue service, spent Sunday with his family in this city, coming home for the first time since his appointment to his new place four weeks ago. Mr. Ligget says that thus far his duties have been entirely in the city of Chicago. He is much pleased with his new place.

COAL RATES ARE ORDERED REDUCED

State Rail Commission is Bringing Relief to South Bend.

COMMISSION MAKES IMPORTANT RULING

Likely to Have Far-Reaching Effect as It Lays Down a Principle.

Indianapolis, Feb. 8.—Holding that the freight rates on coal shipped from the Indiana coal field into South Bend over the Lake Shore and Michigan Southern, the Vandalia (Michigan division), and the Southern Indiana, as a feeder for the Vandalia, presented instances of unjust discrimination against the manufacturers of that city, the railroad commission of Indiana today ordered a reduction of the rate from 90 cents and 95 cents to 80 and 85 cents. As much as a separate filing in a similar case was made on behalf of manufacturers of Mishawaka, the cases were considered in the same finding, and a rate to that city established at 85 cents and 95 cents, a reduction from $1.15 and $1.20.

The principle involved in the finding by the commission is that no one delivery point reached by a carrier may be discriminated against in maintaining rates to other delivery points reached by the same carrier.

It was found that the Vandalia, after reaching Logansport, carried coal into Chicago, a distance of 132 miles, for less than it carried it into South Bend, a distance of 66 miles. However, the relative freight rates

REPEAT THE TALKS OF MARSHALL'S AGENT

Harry Brunaugh, Now a Convict, Figures in Indianapolis Graft Trial.

Indianapolis, Ind., Feb. 8.—Conversations in which Harry Brunaugh admitted that he had presented false claims to the city for asphalt patching repairs done by the Western Construction company, of which Henry W. Marshall is president, were detailed by City Engineer Blaine Miller in the Marshall trial in criminal court this morning.

Mr. Miller said that Brunaugh came to his residence on the night of Aug. 7, when Mr. Marshall had just called him up and told him to see Mr. Miller in regard to something wrong being found with the patching books by the city engineer.

Mr. Miller said he told Brunaugh there were changes in the July books, and that he said they did not amount to anything.

"'I had been in pretty hard lines,' Brunaugh resumed. 'I want to make $3,000 on the July claims.' 'How much do you get of the profits?' I asked. 'Half,' he said. 'I've been making about $600 a month. I need money.' 'Is there anything wrong with the April, May and June claims?' I asked him.

"'Nothing,' he said.

"'Can't I get the July bill in?' he said. 'Let's just cut off seven thousand square yards from the claim and send in a claim for only twenty thousand square yards?'

"I told him I couldn't do that, and then he asked me what I was going to do. 'I don't know yet,' I said.

"My next conversation with Brunaugh was at the Denison hotel.

"He asked me if I couldn't get the July bill in. 'I'm awfully hard up,' he said.

"I told him I couldn't accept the July bill.

"'You have told me that there was nothing wrong with the April, May and June bills,' I said. 'I have examined one of the inspector's books and I know there were changes in the records for those months.'

"'The changes won't amount to more than $1,500,' he said."

Had a Talk With Marshall.

Mr. Miller said that after his conversation with Brunaugh at the hotel he had a talk with Mr. Marshall.

I told Mr. Marshall that Brunaugh had denied making changes in the April, May and June books, but he had later admitted changes had been made, but that they would not amount to much.

"Mr. Marshall said he was willing to settle on a basis of the correct number of square yards patched, and that he did not wish pay for any more than that. He said he would discharge Brunaugh.

"Later on Mr. Marshall came back and said he had discharged Brunaugh and he showed his contract with Brunaugh, which had been canceled."

OPTION REPEAL BILLS SENT BACK

House Committee on Morals Has Kleckner and Tomlinson Measures.

BILLS IN NEED OF A BIT OF TINKERING

House is Not Yet a Certain Quantity for Repeal—The Legislature.

Indianapolis, Feb. 8.—When the house convened at 2:30 o'clock this afternoon, Representative Garrard, democratic floor leader, made a motion that the Kleckner and Tomlinson county option repeal bills be recommitted to the committee on morals.

There was no objection to recommitment of the bills and the action was taken by consent.

Chairman Racey, of the public morals committee announced a meeting of his committee at 5 o'clock this evening. The Tomlinson-Proctor bill, he said, would probably be returned to the house for second reading tomorrow.

The repealers this afternoon claimed the vote of Representative Murphy (democrat). Murphy had been listed with the original opponents of repeal. He refused to confirm or deny the report that he had changed his position, but said he did not know how he would vote on the Tomlinson bill. He will not vote for the Kleckner bill, he says.

OUTLOOK FOR THE BILLS.

Indianapolis, Feb. 8.—Although there has been some dissatisfaction among democrats of the house of representatives over the provisions of the Proctor-Tomlinson county option repeal bill, democratic leaders were unwilling to admit today that they would abandon their program for the attempted repeal of the county local option law.

If the present arrangement goes through a motion will be made this afternoon to recommit the Proctor-Tomlinson bill to the committee on morals for amendment. The committee will meet at 5 o'clock this evening to consider the Wells bill to place the so-called near-beers under the liquor regulations, and at that time will, according to Chairman Racey, take up the Proctor-Tomlinson bill if it is sent back to the committee for amendment. The motion to recommit the bill, unless another plan is decided upon, will be made by Representative Tomlinson, who introduced the measure.

First Clash Tomorrow.

The first clash over the county option repeal will come tomorrow in case the bill is recommitted this afternoon. In such event the bill would be handed down for second reading as amended tomorrow.

The objections raised against the Proctor-Tomlinson bill today seem to have accomplished little more than to

GAS FOR BLUFFTON AND DECATUR BY MAY 1

Work to Start on Pipeline Quickly as Weather Will Permit.

General Manager S. E. Mulholland, at the head of the Fort Wayne division of the Indiana Lighting company, hopes to be able to begin serving artificial gas to Bluffton and Decatur from the Fort Wayne plant by May 1. Work is to be started on the laying of pipe lines between Fort Wayne and the two cities as early as the weather will permit.

Some time ago the Wells county commissioners granted a franchise for a pipe line from Bluffton north to the Allen county line, and a few days ago similar rights were secured in Adams county. It is the intention to lay a four-inch line between Fort Wayne and Bluffton, with a line of similar size leaving the line at Kingsland and running eastward to Decatur. Mr. Mulholland says the capacity of the Fort Wayne works is ample to supply gas for the three cities.

President C. F. Dieterich, who was in the city Saturday, remained but a few hours, proceeding to Lima, Ohio, and then to New York.

SMALLEST TAX SALE IN HISTORY OF COUNTY

Business About Finished and Advertising Shows Good Results.

The smallest tax sale in the history of Allen county was opened in the county treasurer's office this morning and the number of delinquencies is so small that all of the work will have been finished in one day, which is an excellent record in comparison with the sales of former years.

This is attributed in a great measure to the thorough methods of advertising employed by the county commissioners, who had the lists printed in all of the daily papers this year, which not only brought in a lot of cash that would in all probability not have been reached by any other methods, but it brought about the correction of a number of mistakes that would have worked great hardship on property owners who had paid their taxes on property that had not been transferred.

There was no feature to the sale except that it put Wallen real estate in bad as lot after lot was passed up for the reason that nobody cared to risk as much as a dollar and a half on the probability of redemption or future ownership.

Put In Too Much Perfume.

In the circuit court today the suit of the Mutual Manufacturing company against Allen G. Dunten was placed on trial. It involves a bill of $140 and Mr. Dunten alleges that he bought a bill containing a lot of salable soaps and some perfumes that were not very desirable. The concern, he says, cut down on the soap and increased the perfume order and he declined to accept the shipment.

Court Notes.

John Linzie, convicted of grand larceny last week, was taken to Michigan City today by Sheriff Reichelderfer.

A divorce suit was filed by Eva Vigus against William H. Vigus and the complaint was withdrawn from the files by Judge S. M. Hench, who represents her.

LIGHTING WAR NOW COMING DOWN TO BIDS

Traction Company Beats Out City in Contract for Elks' Temple.

The electric lighting war between the Fort Wayne and Wabash Valley Traction company and the municipal light and power plant today reached a point where the traction company beat out the city in competitive bidding on a contract for lighting the Elks' temple.

Announcement was made at the city hall that the price offered to the Elks by the city was 8 cents per kilowatt. In other quarters it is asserted that what was really offered by the city was a sliding scale that is estimated to average slightly more than 4 cents per kilowatt. The traction company's bid was 4 cents flat, and the company will get the contract.

Officials of the traction company deny that any offer was made to renew Tungsten lamps, and that this cannot be done. It was explained, however, that the company had agreed to exchange Tungstens for some lamps of the Gem pattern recently installed in the Elks' temple. When traction officials were asked if the action today was a precedent which the company might be expected to follow, it was rather plainly intimated that the company intended to retain its business if it is possible to do so.

STORM BATTERS LUSITANIA.

Queenstown, Feb. 8.—The Cunard line steamer Lusitania, which came in here hours late from New York, was severely affected by the storm. She lost one of her anchor chains. She entered the harbor at 7:30 a. m. and disembarked her passengers and mail. She was obliged to take on 600 tons of coal here. This delayed her.

ANOTHER COQUELIN DIES.

Paris, Feb. 8.—Ernest Alexander Honore Coquelin, the French actor, known under the name of Coquelin Cadet, died in a hospital in Paris today. He was a brother of Benoit-Constant Coquelin (Coquelin Aine), who died January 27.

CELEBRATED HIS BIRTHDAY.

County Clerk J. N. Mason yesterday celebrated his birthday or rather his friends celebrated it for him and among other things he was sporting today a handsome stick pin that was given him as a remembrance. The celebration took place at his home and was a most enjoyable affair.

MARRIAGE LICENSES.

Charles P. Sarrazine, 26, farmer, and Alberta B. Cornielle, 19.

Claude P. Kinder, 22, farmer, and Zannetta Pequignot, 27.

Sherman P. Stultz, 49, loan broker, and Ella N. Gritscher, 40.

Paul Arranz, 25, tailor, and Blanche Bettilyou, 25.

John C. Baur, 24, clergyman, and Helen Goers, 25.

Henry A. Ehrman, 19, laborer, and Eva M. Counterman, 17.

On Friday evening the Bachelor club of the Knights of Columbus will give a dance and reception at its hall.

PRESIDENT WILL ADVISE CONGRESS

[Continued from Page One.]

plaining that President Roosevelt is discriminating against their countrymen in favor of the Japanese. The memorial, drawn by the representatives of the Six Companies, which is the Chinese Benevolent association, of California, will be telegraphed to the president today. The telegram which will be a lengthy document, embraces all the abridgment of rights under which the Chinese claim to be suffering.

Say Japs Are Favored.

A comparison of the governmental treatment of the Chinese and Japanese is made and the claim raised that the latter are clearly favored by the authorities at Washington. Attorney O. P. Stidger, who drew up the telegram, says it contains a strong protest against the president exerting his power to prevent the segregation of Japanese chilren in the public schools while he makes no complaint against the common practice of excluding Chinese from the white schools. The telegram also denounces the exclusion act, complaining that the immigration inspectors in their enforcement of it, continually violate the fourteenth amendment of the constitution. It was announced last night by Kikuo Kiyose, the correspondent of the Ashia, of Tokio, that two parties of Japanese royalty planning to visit the United States this year, will cut California from their itinerary. Included in the parties will be the Prince and Princess Kunyoshi. The members of both parties are middle-aged, and this will be their first trip away from Japan.

IS SCEME NIPPED.

Hughes or Whalen Lands in Jail on a Charge of Loitering.

Ed Hughes, or John Whalen, as he is better known about here, was locked up at police headquarters today on a charge of loitering after an attempt to mulct the Nickel Plate road in the same way he tried to get damages out of the traction company on Christmas day. He got in the way of a switch engine that was moving slowly Saturday night and was howled over. He was taken to St. Joseph's hospital and when he wanted to leave this morning the police were sent an Patrolmen Dickson and Spillner identified him as the man who had been in a number of similar escapades. His graft is to get knocked over by a street car or a switch engine, pretend to be paralyzed about his lower limbs and then settle for whatever he can get. He will be in the city court tomorrow and will probably be charged with trespassing.

WRECK ON ILLINOIS CENTRAL.

One Killed, Many Hurt When Train Goes Into Open Switch.

Memphis, Tenn., Feb. 8.—Running at a high rate of speed, the Chicago flyer, of the Illinois Central, plunged into an open switch at Coldwater, Miss., early today. One person was killed and a score injured, several of them probably fatally.

The dead man is Martin Stanton, Memphis. Others may be dead in the wreck, but their bodies have not been found. At the scene of the wreck, it is reported, that there are three or four others still under the debris.

CITY BREVITIES.

M. Frank is in St. Louis on a short business trip.

L. J. Keller, A. H. Keller and A. S. Stahlhut have returned from St. Joe, Mich., where they were called by the death of a relative.

Lawrence, the five-year-old son of Mr. and Mrs. Albert Baker, is in a better condition at the St. Joseph's hospital. For several days past his condition has been critical and it was not expected that he would live.

Byron Hayes, the son of Mr. and Mrs. James J. Hayes, has sufficiently improved to be able to leave the St. Joseph's hospital. He will soon return to his studies in St. Joseph's college at Rennsalear.

The report for January of County ealth Board Secretary E. M. Van Buskirk shows that there were eighteen deaths during that time and just twice as many births.

Jesse L. Scott will go to Springfield, Ills., tomorrow to attend a banquet there of Prudential Life insurance agents.

Baliff George Strodel, of the city court, made the joyful announcement during the session this morning that a girl baby arrived at his house yesterday morning.

Mrs. John Quinlan, who has been a patient at St. Joseph's hospital, has been removed to her home, 1303 Union street.

WILL ELECT CHAIRMAN.

Allen county prohibitionists will meet at 10 o'clock tomorrow in the court house assembly room to elect a county chairman and transact other business. Rev. J. H. Hector, famed as "the black knight," will speak at 1:30 and at 7:30 o'clock.

LOCAL INVESTORS INTERESTED.

Little Florence Mining Company in Bad Financial Way.

The publication in the Chicago papers yesterday that President Aldrich, of the Little Florence Mining company had issued a statement charging that Managing Director Keelyn is about $145,000 shy in his accounts revealed the fact that there are a number of investors in Fort Wayne who are interested in the property.

Keelyn is out with the statement that there is nothing more serious than a misunderstanding about the methods of bookkeeping and that as soon as he is called upon he can make a statement that will straighten the whole matter out. Local interest is added by the fact that C. G. Strieder, formerly a citizen of Fort Wayne, is the secretary of the company.

OPTION REPEAL BILLS SENT BACK

[Continued From Page One.]

add to the disorganization which has been apparent since the Klechner ward and township option bill was introduced. One of the chief objections to the bill seems to be the provision which restricts saloons to incorporated towns and cities.

What Representative Shirley Says.

Representative Shirley, (democrat) of Allen county, says there are a number of saloons in the country districts of his county which would be forced to close if the Proctor-Tomlinson bill is enacted.

"The bill," said Representative Shirley, "would cut out all our saloons."

Representative Shirley lives at Woodburn, a rural community. He favors the repeal of the county option bill, however.

Both houses of the legislature will assemble at 2 o'clock this afternoon.

The house will take up as a special order the tenement house bill, which was passed by the senate last week. The Bland public accountings bill is scheduled for 2 o'clock in the senate, but probably will be further delayed for amendment. At 2:30 there is a special order for consideration of the bill for an additional superior court judge at Hammond.

Sunday Base Ball Bill.

The Sunday base ball bill is not expected to come up in the senate this afternoon. Senator Durre, republican, of Evansville, and chairman of the judiciary B committee, which has the bill under consideration, said this morning the base ball bill would probably come before his committee tonight for slight changes in wording. The committee does not plan to change the intent of the bill, but to make it technically correct. The bill may reach the senate for second reading tomorrow.

The ways and means committee of the house is expected to report favorably this afternoon on the bills for the erection of the Colfax and Voorhees monuments, the former at South Bend and the latter at Terre Haute. An appropriation of $70,500 is asked for each of these monuments.

Would Share 60-Cent Gas.

It developed today that Terre Haute and probably other second class cities are going to try to share sixty-cent gas with Evansville if Senator Durre's bill goes through. The Durre bill applies only to Evansville, but with the arrival of Representative Hay, of Terre Haute, this morning, it was announced Terre Haute would try to get sixty-cent gas. Representative Hay declares he will introduce an amendment to include all second class cities.

"They are not going to butcher that bill if I can help it," said Senator Durre this morning when he was told of the proposed amendment in the house. The bill may come up for second reading in the senate this week.

COAL RATES ARE ORDERED REDUCED

was considered chiefly as showing that South Bend was or was not discriminated against, the gist of the case being, according to the commission, a trial on this question.

The decision is considered by the commission the most important it has handed down, since it makes perfectly clear the stand the commission takes and will take on questions where discrimination is evident. Directed against the respondents in this case, it is made to apply to all railroad systems, indirectly, since the rates of representative roads have been considered in making the finding.

GIRL HAD BEEN LYING.

Told Story That Enlisted Doctor and His Wife In Her Behalf.

Flora Ebert, aged about 11 years, has been returned to the home of her parents after an absence of a few days in which she visited a jail flat resort and told that an uncle, to whom she had been sent in Chicago after the death of her parents here, had shipped her back and she was out in the cold world. The inmates of the place kept her over night then gave her into custody of a washwoman named Likely, who kept her a couple of days, and next a physician and his wife got her and believed she was telling the truth.

Late Saturday afternoon the doctor's wife took the girl out to buy her some clothing and noticed that she was recognized by a number of children on the street. Finally her sister came along and identified her and she was taken to her home on Franklin avenue. She said she went away from home and told all the queer stories just for a lark.

VETERAN ACTOR IS VERY ILL.

West Swanzey, N. H., Feb. 8.—Denman Thompson, the veteran actor, is ill with pneumonia at his home here. He has been confined to his bed since Wednesday. One of the nurses in attendance stated today that Mr. Thompson's condition was slightly improved, but that he could not be considered out of danger. Mr. Thompson is 76 years old.

GETS BETTER POSITION.

E. J. Heywood, who has been secretary and general manager of the W. M. Griffin Co., o fthis city, has resigned and has accepted a more lucrative position with the Newbro Herpicide Co. of Detroit. Mr. Heywood left for Detroit this morning to assume his new duties.

STILLGESS IS WANTED.

The police have been notified that James Stillgess is wanted at Springfield, O., where his brother is dead and will be buried tomorrow.

ADDITIONAL Shop and Rail

SOME CLERKS PROMOTED.

Force at Nickel Plate Freight Office Advanced.

Agent H. E. Allison, of the Nickel Plate, has created a new office at the freight house, that of revision clerk, and installed L. T. Griffif therein. The creation of the new office has been followed by a number of promotions. E. G. Reed has become rate clerk, W. E. Forsythe line bill clerfi, O. W. Seibert, night bill clerk, P. Thomson, tracer clerk, and Ed Koenig, expenso clerk. The latter was formerly a messenger at the office of Supt. S. K. Blair. All of the others were promotions in the clerical ranks at the freight office. Mr. Griffif will look after incoming and outgoing freight.

MR. ALLISON OUT AGAIN.

Agent H. E. Allison, of the Nickel Plate, who was injured by a fall January 21, is making good progress towards recovery and hopes to soon discard canes and get about as usual. He is looking after business, however.

J. H. Stevens, commercial agent of the Cincinnati Northern with headquarters at Jackson, Mich., was in the city today.

THE DEATHS.

HOLTERMAN.

Henry P. Holterman, in former years a prominent dry goods merchant and once member of the board of education at Columbus, Ohio, died Saturday afternoon at the county infirmary at the age of 42 years. He had been an inmate of the institution for more than a year and death was due to nephritis.

Following the death of his wife, Mr. Holterman's own health failed, and as a result of constant worry he became mentally unbalanced. He was brought to the home of a brother, W. D. Holterman, in Fort Wayne, and later it was necessary to place him in the infirmary. Surviving relatives include two children and two brothers, William D. and Emil A. Holterman, of this city. The remains were taken to Columbus for interment.

MOEHL.

Henry Moehl, a young man who has been employed as a plumber by Albert Rolf & Bro., died at 12:15 o'clock this morning at the Lutheran hospital at the age of 20 years, 5 months and 6 days. Death was due to blood-poisoning and other complications, following an illnesss of three weeks.

Mr. Moehl was born in Germany, coming to America three and one-half years ago, and for two years he had lived in Fort Wayne. He had many friends and was a member of the Turnverein Vorwaerts and the Concordia Singing society. An uncle, Conrad Wambach, of Evansville, had been at his bedside for some days prior to his death.

Funeral services Tuesday afternoon at 2 o'clock from the residence of Louis Brunner, 1229 Swinney avenue, under the auspices of the Concordia singing society. Interment at Evansville.

KLINGER.

Isaac Klinger, a former resident of Fort Wayne, died Saturday at Muskegon, Mich., where he had resided for some years, and where the death of his wife occurred a year ago. He was 72 years of age.

Mr. Klinger was born in Fort Wayne and spent much of his active life here, serving also as a soldier in the civil war. Two brothers and a sister survive. They are William Klinger, of California; Frank Klinger, of Elkhart; Elizabeth Klinger, of White Pigeon, Mich. James Klinger, of Fort Wayne, is a cousin, and W. H. Hoham, of this city, is a brother-in-law.

Funeral services from the residence of Mr. Hoham, 1412 West Main street, Tuesday afternoon at 2:30 o'clock.

Mr. Klinger was a member of Company B, 129th Indiana volunteers, recruited in Fort Wayne and commanded by the late Col. C. A. Zollinger.

Flag service will be held over the remains of Mr. Klinger by the Women's Relief corps at 2 o'clock tomorrow afternoon.

DRESSEL.

Mrs. Mary Dressel, who was for many years a resident of Fort Wayne, died Saturday night at the residence of her son, Val Dressel, west of Ossian, from paralysis at the age of 85 years, 10 months and 5 days.

The deceased was the widow of George Dressel, and surviving children are Philip Dressel, Convoy, O.; Henry Dressel, Mrs. Louisa Koons, Mrs. Herman Kratzsch, Fort Wayne; John, Val, Miss Rose and Miss Sadie Dressel and Mrs. Christ Graft, of Ossian. There are twenty-one grandchildren and thirteen great grandchildren.

Funeral services Tuesday afternoon at 2 o'clock from the residence of Mrs Louisa Koons, 1330 Francis street, and at 2:30 from St. Paul's Lutheran church, Rev. Jacob Miller officiating.

KESHLER.

Mrs. Dale Keshler, who has for some years made her home with her daughter, Mrs. Mark T. Cocherl, 713 Edgewater avenue, died Sunday at Frederickstown, Ohio, where she had been visiting for several days. Mrs. Keshler was 62 years of age and death was due to pneumonia.

Funeral services and interment at Marion, Ohio, Wednesday.

LEONARD.

The infant son of Mr. and Mrs. Herbert Leonard, of St. Joseph township, died Saturday afternoon from exhaustion. The babe was one of twins, a son and daughter, born Thursday.

Funeral services were held from the residence Monday afternoon.

CROWD WAS ON HAND.

Much Feeling Against Accused Negro in Pittsburg.

Pittsburg, Pa., Feb. 8.—Many persons gathered in the vicinity of the east end police station this morning, believing that James Dickson, a negro, who was arrested Saturday night for insulting a white woman, and who narrowly escaped being lynched, would be given a hearing. Owing to the inability of the young woman not to appear until tomorrow the case was postponed until that time and the crowd dispersed.

Notwithstanding the stringent measures taken by the authorities a majority of the negro population is defiant and there is apparently no abatement of assaults against white women.

IN THE THEATERS

Even this early in the week "Salomy Jane" is attracting large audiences, for this play, which Our Own Stock company is presenting every day, but Thursday and Friday, has a fame preceding it which lends unusual interest to the production. Two interesting children appear in the cast. At a recent production of "Salomy Jane" in Indianapolis by a stock company of that city, the press was unanimous in praise of the play.

* * *

Miss Adelaide Norwood, the prima donna soprano of the English Opera company, which is to be seen in this city Thursday evening, was chosen by the Italian composer, Giacomo Puccini, from all the American singers to create the title role in his masterpiece, "Madam Butterfly." The original production is to be seen here with all the magnificent scenery and costumes and electrical and mechanical effects, and a company comprising seventy-five artists and an orchestra of thirty pieces. The sale of seats indicates one of the largest audiences of the season.

* * *

Pretty girls and catchy songs, dances which are marvels of grace and action, a cast of sterling players, and above all, a play with a plot of intense human interest are found in "The Girl Question," the entrancing musical play which comes to the Majestic for two performances on Friday.

* * *

Charles Frohman will present the quaint and irresistible comedian, Frank Daniels, at the Majestic Tuesday, Feb. 16, in "Hook of Holland," a musical play which ran two years in London and which was pronounced by the press of New York city last season as one of the merriest, cleanest, quaintest, best light musical productions seen on the American stage in late years.

* * *

Charles Frohman will present "The Thief" at the Majestic on Feb. 24 and 25. The play is one of the strongest of recent writing. The author, Henri Bernstein, has composed other plays of great artistic merit and absorbing interest, but in "The Thief" he made a tremendous drama that has become world famous.

* * *

At the Lyric.

"A Texas Ranger," Ernest Stout's drama of western life, opened at the Lyric this afternoon and will be given by the Lyric Stock company throughout the week. It is a stirring story of life on the Texas plains and is one of those distinctly American plays that cannot but appeal to the American. It not only abounds with thrilling situations, but it carries along several pretty romances and teems at times with lively comedy. The bill is expected to prove one of the most pleasing of the season.

* * *

At the Temple.

The headliner at the vaudeville this week is the combination known as the Great Bottomley troupe. The act is sensational and high salaried. It is but one of numerous entertaining numbers, which go to make up one of the best bills in vaudeville seen at the Temple.

Mr. and Mrs. J. Erlenbaugh, of 1910 Pine street, have been called to Huntington by the death of Jacob Miller, a relative.

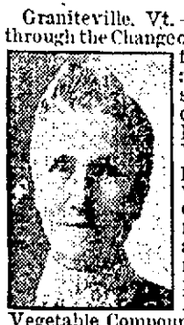
WORTH MOUNTAINS OF GOLD

During Change of Life, says Mrs. Chas. Barclay



Graniteville, Vt. — "I was passing through the Change of Life and suffered from nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter." — MRS. CHAS. BARCLAY, R.F.D., Graniteville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures of female ills as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing female complaints such as inflammation, ulceration, local weaknesses, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration, and it is unequalled for carrying women safely through the period of change of life. It costs but little to try Lydia E. Pinkham's Vegetable Compound, and, as Mrs. Barclay says, it is "worth mountains of gold" to suffering women.

Every Woman is interested and should know about the wonderful MARVEL Whirling Spray. The new Vaginal Syringe. Injection and Suction. Best—Safest—Most Convenient. It Cleanses Instantly.

HOUSE WILL TRY TO PASS BILL OVER THE VETO

Members Disposed to Have Their Way With the Census Act.

Washington, Feb. 8.—An attempt will be made in the house, according to the plans of house leaders, to pass the census bill over the veto of the president, it is said. The action on the veto will be taken probably some time this week.

The first business of importance to claim the attention of the house Saturday was the president's message vetoing the census bill. Mr. Crumpacker moved the reference of the bill and message to the census committee.

Mr. Gillett Massachusetts), objected, inasmuch as the bill could not be amended there was no reason for its reference.

Mr. Crumpacker said the alternative was offered of reporting the bill back either with a recommendation that it pass, the president's veto to the contrary notwithstanding, or with a recommendation that it do not pass.

An effort by Mr. Parson (New York), to amend the bill in accordance with the president's suggestions failed and without further debate the bill and message were referred.

By a vote of 111 to 182 the house today refused to repeal the national bankruptcy law.

SHOWS SPARTAN HEROISM.

New Orleans, Feb. 8.—Patrolman Freitage, of New Orleans, is a believer in the doing of one's duty, however Spartan-like it may be. He arrested his own wife here last night, when she and a neighbor engaged in a difficulty. He marched both women to the police station and preferred a charge of disturbing the peace.

A FAMOUS BEAUTY SPECIALIST

Gives Advice to Women Lacking in Energy and Vitality.

Thousands of women are using toilet preparations unsuccessfully.

Cosmetics fail to improve their thick, muddy complexions or to banish the pimples, blackheads and crow's-feet

No wonder. Their trouble lies far deeper than the skin. They have bad blood, and bad blood in 90 per cent of the cases arises from inflammation of the mucous membrane. Their blood is filled with poison which is certain to break out in unsightly humors and blotches—while pale, drawn faces, deep circled eyes, stooping shoulders and weak backs complete the story of suffering and despair.

Inflammation of the mucous membrane is catarrh. Banish catarrh and complexions will clear as if by magic, pain vanish, eyes will brighten, faces become plump and shoulders erect. Perfect beauty goes only with perfect health, and perfect health for women can only be obtained through Rexall Mucu-Tone, the one positive and permanent cure for catarrh.

Mme. Swift, 44 W. 26th St., New York City, the most famous beauty specialist in the world and an accepted authority on all relating thereto, has this to say of Mucu-Tone:

"I can strongly endorse the claims made for Rexall Mucu-Tone as a cure for systemic catarrh. Its tonic effects are remarkable. It builds up the strength and restores vitality. If women who are tired and run down, lacking in energy and vitality, will use Mucu-Tone, they will praise it as I do for its strengthening and healing qualities."

Rexall Mucu-Tone works through the blood, and acting directly upon the muco-cells—the congestion and inflammation of which are the sole cause of catarrh—causes them to expel the poison and to resume their natural functions. Thus the membranes are cleansed—the blood purified and revitalized.

We know that Rexall Mucu-Tone will cure every form of catarrh, no matter where located, of how long standing, or by what other names it is known. We guarantee to refund your money if you are not satisfied with the vigorous health and clear complexion it brings you.

TORNADO IN SOUTH BROUGHT HAVOC AND DEATH

Three States Suffered in Storm—Deaths Exceed a Dozen.

Atlanta, Ga., Feb. 8.—The storm which passed over Mississippi, Alabama and Gerogia Friday in numerous sections, reaching the proportions of a tornado, was very disastrous to life and property. Reports received here last evening tell of the deaths of more than a dozen persons, the fatal injury of almost twice as many more, and it is believed that reports from the devastated district today will greatly increase the number of fatalities. Telegrams and telephone service is badly crippled, this condition extending into South Carolina, and it will be several days before communication with the smaller towns, which suffered the greatest, will be restored. The storm traveled eastward from northern Texas and caused the greatest havoc in northern Alabama, although high winds prevailed throughout the length and breadth of that state, reaching a velocity of forty-six miles per hour as far south as Mobile, where a torrential rain was accompanied by hail. News from this district of the storm's work is awaitied with eagerness.

SCHEDULED TO FIGHT.

New Orleans, Feb. 8.—Johnny Lynch, of Boston, and Tommy Lavigne, formerly of Chicago but more recently of New Orleans, will meet in a scheduled ten-round bout tonight at the Royal Athletic club. They are to go on at ringside weight of 126 pounds.

EIGHT FOR JACK KETCH.

Baton Rouge, La., Feb. 8.—Friday, March 5, will be hangman's day in Louisiana. Eight men, the largest number to be executed in one day in the criminal records of Louisiana for many years, will be hanged at that time unless their executions are stayed, which now seems improbable.

LICENSE LEAGUE TO GET BUSY.

Louisville, Ky., Feb. 8.—The National Model License League, an organization of liquor interests and collateral trades, is planning to hold a series of sectional conventions throughout the United States to organize more thoroughly the trade in the various sections with the object of working for uniform license laws. The first of these conventions will be held for the Pacific coast and Rocky mountain slope at San Francisco next May.

The grand jury doesn't suffer for amusement. George Brackenridge is foreman, and that is enough to insure lots of fun.

Tony Trentman tells us that the paper mill business is booming. He cannot make paper fast enough to supply the demand. Next spring the manufacturing facilities of the mill will be doubled.

Al Foote is in Indianapolis, where a meeting was held today to organize a state baseball league. It is understood that clubs will be organized at Fort Wayne, Terre Haute, Indianapolis and Evansville.

St. Mary's river has been swelling rapidly during the last few days and now is within a few feet of the highest mark in its history. Great volumes of water are coming down the St. Joe, and the two streams are swelling the Maumee beyond all proportion.

At Cincinnati yesterday the contract was let for building the Columbus, Fort Wayne and Western railroad. This road runs into the Hocking Valley coal fields. The Metropolitan Construction company has the contract to build the Fort Wayne branch, and is bound to begin work before April 1. This is a great boom for Fort Wayne.

This morning the Jenney Electric Light company filed suit in the superior court against the Nickel Plate Railroad company to recover $1,000 for damage done to its property by the railroad company. The electric light works are just off the railroad tracks in this city, and considerable excavating has been done to the injury of its property.

Taffeta PETTICOATS

EVERY PETTICOAT GUARANTEED

As expected, women are everywhere showing extraordinary interest in the Fashion Week Exhibit of Heatherbloom Petticoat Styles. Our display has created the most favorable comment—and well it may—for the petticoats shown are faithful reproductions of the very latest French styles. These are the same models that Dame Fashion is wearing in Paris. The same variety of shades, stripes and fancy patterns—the identical delicate embroidery. Moreover, they are all made of that famous better-than-silk fabric—Heatherbloom Taffeta.

IMPORTANT!

Inferior Petticoats are often sold as Heatherbloom. As YOUR guarantee of the genuine Heatherbloom, you will find this label in the waistband of every petticoat we offer.

HEATHERBLOOM TRADE MARK.

Every woman knows that Heatherbloom Taffeta is recognized as silk's superior for all petticoat purposes. It has the same sheen, the same rustle, but wears three times as long and costs but a third as much.

Heatherbloom is of one quality only.

This Special Sale and Exhibit OF Heatherbloom Taffeta Petticoats

NOW GOING ON,

and will continue all this Week upon our Great Third Floor.

Never before were Heatherbloom Petticoats shown in greater profusion of styles at such low prices as during this exhibit.

Pittsburg is greatly in fear she is going to have a great race riot. That is about the best way to get one started.

If congress is really going to blow up the president, let it please say when; if not, would like that information also. Suspense isn't painful, but it modifies interest in other affairs.

Glancing over some of the programs for Lincoln day observances one sees the names of a few statesmen billed to talk of the great emancipator who are about as unlike Lincoln as if their creation had been solely designed to show the difference.

Anyway, Japan doesn't have to go to war with anyone now to prove that she isn't afraid and to demonstrate that she can fight. Her courage and her scrapping ability have been established. She has gone out and got a reputation. So one cause of conflict is removed.

Invocation of the "blind tiger" law in the cases of some of the assignation houses and kindred resorts in this city will go far to break up not only an illicit traffic in intoxicants but do much to suppress the resorts themselves. The Indiana "blind tiger" law is severe statute and those convicted under it are not likely to invite a repetition of similar attention. Singular it may appear, but it nevertheless is true that the "blind tiger" law is practically a dead letter in this city, though the occasions for invoking it are numerous.

A bill is now before the Indiana house which is purposed to improve the public library service and usefulness in this state. The bill provides for a state board of library commissioners to be appointed by the governor and to have control and management of the state library, public library commission, as at present constituted, and a state library school. The bill has many merits which should commend themselves to the legislature. That vastly more educational results could be got from the public libraries of the state is generally admitted by persons familiar at all with library work and this the bill is designed to accomplish. Miss Merica Hoagland, formerly of this city, now of the Indiana Public Library commission, is energetically urging the bill.

A little more and then a little more added to the bill it is proposed to substitute for the county option law will not leave much difference between what is and what is proposed. Save that the complications in the patchwork measure now under consideration will make it susceptible perhaps to attack in the courts. Evidently, it is formally designed to save the big cities of Indiana from possibility of attack by the Anti-Saloon League. The more distinctly rural counties are already in large part "dry" and such as are not can doubtless be made so by a township unit law or by blanket remonstrance. But that fact of county option exposes Indianapolis, Fort Wayne, Evansville, Terre Haute and some other of the larger cities to assault; whereas, under the provisions of the bill now most in favor among the county option repealers in the legislature these cities are rendered immune to attack so far as each can rely on its own voting population to furnish "wet" majorities by wards. In other terms, the effort is to save something from the wreck of war for the liquor interests.

President Roosevelt, it is quite evident, has information bearing upon the unpleasant state of affairs growing out of the anti-Japanese propaganda in California that he cannot at present make public. At all events, his efforts to head off the enactment of the laws hostile to the Japanese now before the legislature in Sacramento are transcending any efforts ever made by any federal executive to influence the conduct of a sovereign state in time of peace. That the situation is in the president's view extremely grave may hardly be doubted, and that he would exaggerate either to the public or his own mind the gravity of that or any other affair merely for the sake of exerting influence is not to be thought of. California's persistence in the course she has set out upon undoubtedly threatens international peace. And the worst of it is, that by the integrity of conventions and the formal comity of nations California is putting this country "in bad." Discrimination against the Japanese puts this country entirely upon the defensive in any representations Japan may choose to make to this government.

FOR PUBLIC PLAY GROUNDS.

Editor Sentinel:

The shortsightedness which prevents some few people in Fort Wayne from seeing that the children of the city need a play ground is rather a fault of position than a real error of vision. To see far one must stand upon high ground, when the view is not shut off by the bulwarks we have erected to shield ourselves and our own from the unpleasant and the dangerous elements that lie in wait for those less fortunate.

BALD-HEAD POCKETS HIS LOSS WITH SMILE

Angola Man Caught in the Raid Disgorges a Goodly Sum.

A bald-headed man from Angola, who gave the name of Howard Johnson, separated himself from $35 in the city court this morning with a smile and dug out for home with the happy consolation that while fun comes high in Fort Wayne, he had the money to pay and he did not have to go to jail like three other fellows who were caught in a raid on the Riverside hotel early Sunday morning.

The bald-head, with another man and a couple of women had a case of beer on tap in a front room in the hotel, and about midnight were having such a hilarious old time that the sound of song and ribald jest reached Sergt. Bill Pappert as he was crossing the Bloomingdale bridge. He summoned some of his men and surrounded the hotel and made a haul that netted fourteen, equally divided as to sex.

The place is run by Berthenia Horstman, and she paid a fine of $10 and costs for running it, and as the police have determined to investigate the manner of conducting it from time to time in the future, it is hoped that it will be carried on on legitimate lines. Seven women in the party all managed to give bonds which exploded a few sensations as their appearance in court would in all probability have revealed some secrets that their husbands know nothing about.

Three men who didn't have $20 each to pay their fines of $10 and costs, went over under assumed names. Ten days in jail was added to the fines imposed upon all of the men, but this was suspended in each case as most of them were out on bond and did not care to appear in court. Not long ago the house was raided and at that time the promise was given by the lessees of the hotel that it would run as a hotel on the plan that hotels ought to be run.

Fort Wayne Loses Citizen.

Fort Wayne can rejoice in the loss of a citizen if John "Neversweat" Lee follows the instructions of Judge Skelton. John has been up so many times that it has become a great problem to dispose of him. The judge told him he had become not only a blotch upon the fair escutcheon of the city, but he was in addition an expensive nuisance as the county pays forty cents a day for keeping him in jail six or eight months every year, and gets absolutely no returns.

John has a sister in Toledo and she keeps a boarding house, and he promised that he would hike today for the fireside of his relative and stick. He was fined $100 and costs and given thirty days and ordered never to come back to the city on a penalty of doing the four months inflicted under the fine and costs.

Bowser Gets Heavy Fine.

After a searching examination of a little girl witness that had testified against William Bowser, the old man charged with indecent conduct, Judge Skelton gave him six months and a fine of $100 this morning, and solved a question that has been puzzling him some time.

Bowser has been in jail a week and a number of hearings have been given but the child witness told such a straight story today that the judge was convinced of the prisoner's guilt.

The Other Cases.

Charles Wagner came over from Paulding county, which is dry territory, to do a little irrigating and brought along a pair of brass knucks. He got drunk and was given $5 and costs. Edward Carney, who was with him, got the same sort of a fine.

William Jones said he had a sick wife at home and a good job and he didn't want to go to jail for drunkeness. He was given a suspended fine of $1 and costs.

Willard Sommers, who cut off the last end of his name, got $1 and costs for drunkenness.

The case against Frank Polson, for drunkenness, was continued until tomorrow. Jesse Anderson drew $5 and costs.

John Stone, a vag, was sent over for fifteen days.

Rheumatism Cured By Bee Sting

(Literary Digest.)

That rheumatism may be relieved by injection of bee poison administered by the bees themselves through the instruments provided by nature for that purpose has long been known, although not many physicians have been radical enough to use the method in their current practice. A recent inquiry into the origin of this odd "bee cure" and its actual results confirms the popular tradition of its efficacy. Says Dr. A. Cartaz, writing in La Nature (Paris):

"It is a popular belief in many parts of France and other countries that the stings of bees constitute a sovereign remedy against rheumatism of the joints. This belief, which, as we shall see, is justified by authentic facts, probably arose from some accident. A beekeeper, or a simple peasant, may have been stung by a bee and have noted the disappearance of a rheumatic pain of long standing. Such was the case of Mr. De Gasparin, as reported by Dr. Desjardins, fifty years ago, in L'Union Medicale. A rheumatic affliction of the joints had caused him continued suffering, and he had in vain used the waters of Aix and St. Laurent, when he was one day stung seriously by a wasp in his right wrist. The arm, which had been very painful, swelled at once, but the pain, at the same time, disappeared. Seeing this happy result, the victim caused himself voluntarily to be stung on other parts of the body, and the rheumatism was cured."

It would be difficult to ascertain at what epoch this new treatment took its place as an acknowledged method. Bee culture dates back to the earliest times, and it is probable that the accident just described happened in other circumstances. A professor in Oxford university, Dr. Ainley Walker, has for some months past been investigating this subject, and the data that he has gathered from physicians and patients clearly indicate that the poison of bees has a quieting action on rheumatic pains.

Everybody Will Wear Specs Some Day

Present statistics show that there is a wonderful increase in the number of people who depend on Glasses for good vision. Take enlightened Boston, "The Hub," for instance. There are more people wearing Specs there than in any other city of its size. Where learning and progress are, you will find the most people wearing Glasses. Are you going to stay behind till you have to have them and then find you have waited too long, that some small trouble has grown till Glasses won't remedy it?

Electric Talks

No. 26

Beware of the Weakest Link

We have cited you some few of many instances that reveal Commercial Lighting as the **WEAKEST POINT** in Municipal Lighting propositions the country over.

We had pointed out previously in these Talks the whys and wherefores of the fatal weakness in Commercial Lighting.

We think we have made it clear that every electrical lighting enterprise which supplies commercial or private lighting has to carry a large amount of business that **NEVER PAYS COST**.

Also that there is carried a still larger amount of business which does not pay back a new dollar for an old one for years, thus **TYING UP LARGE CAPITAL** annually.

Further, that a city cannot reject the applications of either of these two classes of patronage, simply because it is a city and is obligated to treat all citizens **WITH EQUAL FAIRNESS** and without discrimination.

And lastly, that for the profitable or more immediately profitable class of commercial business it must not only fight for every contract with those who know the business from top to bottom—as a city department is not expected to—but is sure to fall into such indefensible mistakes as we noted in the guaranteeing a **PRIVATE CUSTOMER** that he shall have **PREFERENCE**, in case of lack of electric current, **OVER THE PUBLIC** itself.

That these weaknesses are not peculiar to the Fort Wayne attempt to do commercial lighting from a Municipal Plant is made clear by the experience of other cities. They are **INHERENT** weaknesses in the commercial lighting proposition.

For the Municipal Plant in Fort Wayne to undertake Commercial Lighting at this time is, however, **SO ESPECIALLY SUICIDAL** that it is simply deplorable.

Just for a moment suppose the City to be taking on new commercial or private business at the same rate as this Company, and to get its installations and connections as cheaply—a rather improbable last condition. Also suppose this to be continued for the year. What would be the result?

Last month, January, we made almost an even hundred new connections. This at $40.00 each cost us nearly an even $4,000, or at the rate of $48,000 a year.

At the same rate the City would expend in the year 1909 in installations and connections more than double the amout of the annual special tax levy for street-lighting!

Now this money does not come back the first year or the second year, or, in the average case, for some years more.

Can any city stand **SUCH A "SUCCESS"** in securing private customers—a success that means not only dead capital in installations beyond our tax-paying powers, but also enlargements of the Municipal Plant at great expense?

What a company can do because it carries a big reserve in its generating plant, and has its installations in and well over the unprofitable first years, is not for the Municipal Plant to try to duplicate.

Commercial Lighting may mean **SUCCESS** for the **COMPANY** where it spells **DISASTROUS FAILURE** for the **CITY.**

IN THE CITY'S CHURCHES

DR. HATCHER INTERESTS A BAPTIST CHURCH AUDIENCE

Eloquent Divine Delivers Two Stirring Sermons at Sunday Services.

Rev. W. E. Hatcher, LL. D., of Richmond, Va., one of the most eminent Baptist churchmen of the south, preached on Sunday at the First Baptist church. His two sermons marked the inauguration of a series of meeting he will conduct this week and were heard with close interest by large and attentive congregations. One cannot speak in too commendatory a measure of the eloquence of Dr. Hatcher, and those who were present at his discourses yesterday cannot but feel that the importance and significance that has been attached to his work as well as the tributes that have so widely been extended him, are sincerely deserved. In the morning he preached on Joseph, of Arimathea, taking for his subject "Secret Discipleship" and basing his sermon on the text, "And after this Joseph, of Arimathea, being a disciple of Jesus, but secretly, for fear of the Jews, besought Pilate that he might take away the body of Jesus." John 19:38. It was a striking delineation of the character of Joseph and a portrayal of the requirements and characteristics of true discipleship. The sermon was followed by the communion service, at which nine new members were received.

In the evening Dr. Hatcher spoke to another large audience on "Rebuilding the Altar." It was a powerful appeal for renewed consecration and a start anew in life. He took as his text: "Then Jacob said unto his household, and to all that were with him, put away the strange gods that are among you, and be clean and change your garments: and let us arise and go up to Bethel: and I will make there an altar unto God, who answered me in the day of my distress, and was with me in the way in which I went." Gen. 35:2-3. Speaking, Dr. Hatcher said:

"Jacob here resolves upon a new start. Some twenty-five years before he had had a visitation from God and had received signal blessing. But he had wandered away from that and had taken up his residence in the wicked city of Shechem. Further he had married an idolatrous woman, and heathen deities were tolerated in his household. His sons have stained their garments with blood.

"But now God has spoken to him again and Jacob decides upon reform. He proposes to remove the idols from his house and return to Bethel, where God had met him so long ago." Dr. Hatcher commented upon the authority with which Jacob addressed his household, commanding the removal of the idols and a change in conduct. "It is a splendid thing to talk over matters of religion in the household and authority in the direction of the right should be exerted by parents.

"Jacob's action involved two things. All the idols were removed and buried beneath the oak of Shechem, and the sons were commanded to put off the stained garments. All this meant a complete break with the past. That is a first step towards any true reform. Then Jacob proposed to build an altar at Bethel. The rearing of the altar suggested worship and consecration, and these also are essential to any true and worthy life.

"The motive to all of this is found in the fact that Jacob in the time of his distress had called upon God and God had heard him."

The preacher possesses descriptive powers of a very high order, and thrilled his audience with his picture of the scene when Jacob wrestled with the angel until the breaking of the day. This was the time of distress when the Lord heard him, and the memory of this now moves him to return to Bethel and there build an altar.

"If the memory of God's goodness will not move you nothing will," said the preacher, and he spoke eloquently of the faithfulness and goodness of God so manifest in every life whether it is appreciated or not.

The sermon was listened to throughout with the closest attention and at its conclusion a large number passed into the lecture room for an after-meeting in which three persons expressed a desire to become Christians.

Meetings are to be continued throughout the week, Dr. Hatcher preaching each evening. Some afternoon meetings will probably be arranged and if so will be announced later.

This evening at the meeting at the First Baptist church, Dr. Hatcher will preach on "The Passion for Souls."

BETHEL CHURCH SERVICES.

Largest Attendance Sunday During the Present Pastorate.

Immense congregations attended the Sunday services at Bethel Evangelical church. The number was undoubtedly the largest since the beginning of the pastorate of Rev. E. Q. Laudeman in this city. Two hundred and forty-six were in attendance at Sunday school. At the morning service the auditorium was crowded. There were several baptisms and nine new members were received.

Taking for his sermon topic "Knowledge of the Scripture Essential to Keep from Erring," the pastor spoke at the morning service in part as follows:

"The bible will keep us from erring concerning the way to heaven. This is doubtless the most important and weighty matter in which we can be interested and in the book we find a guide which will give direction to all. No less will it keep us from erring in the path of duty and the true way of living. It will help us to draw a correct picture of what we are and also what we ought to be.

"A correct and strong doctrinal belief will follow a good knowledge of the Scripture. The strongest champions of infidelity were not careful students of the bible and therefore their erring and incorrect position. A sober examination of the evidences of Christianity leads to a discovery of inspired revelations and a system of teachings which involve the sacrificial principles of the Son of God."

Another helpful sermon was preached by Rev. Laudeman in the evening on "The Joy Producing Power of Christianity." In the beginning he explained that Christianity is not a cold, iron-clad code of laws to be obeyed, but a power which restores human nature to its most natural state. He emphasized the fact that the product of this power is joy in its most profound sense and that the element at the centre of this joy and which gives it the sweetest flavor is love—"God so loved the world," etc. This love, it was shown, begets love which fills life with true gladnesss.

Both the morning and evening services were in keeping with the evangelistic work in progress at Bethel church, and which will continue with special meetings for the next week or two.

PRESBYTERIAN MEN'S CLUB.

Prof. John Z. White Will Address Meeting at First Church.

"Municipal Ownership of Public Utilities" will be the topic of a very interesting address to be given by Prof. John Z. White on Tuesday evening at a meeting of the Men's club of the First Presbyterian church. It will be the regular meeting of the month and will be held at 8 o'clock in the social rooms of the church. Refreshments will be served after the meeting. It will be recalled that some time ago Prof. White addressed the men on "Henry George and the Single Tax Theory." The attendance of all members of the club is desired.

MAY SECURE PASTORATE.

Rev. Hunter Favored at West Jefferson Street Christian Church.

Rev. Austin Hunter, pastor of North Park Christian church, Indianapolis, occupied the pulpit at both morning and evening service yesterday at the West Jefferson Street Church of Christ. He was heard by large and interested congregations, and he is regarded with considerable favor as a prospective pastor to succeed Rev. Ray O. Miller, who recently resigned. At 3 o'clock Sunday afternoon, the visiting clergyman met with the church board, and the possibility of his appointment to the pastorate discussed but nothing definite was decided on. The matter was referred to the committee, which will make a report concerning the appointment at a meeting to be called by committee chairman and president, Captain W. A. Kelsey.

Y. W. C. A. ACTIVITIES.

Round Table of Social Events and Meetings Planned.

The members of the Young Women's Christian association will enjoy a social meeting on Tuesday afternoon at the home of Mrs. Catherine Hettler, 222 E. DeWald street. Assisting hostesses will be Mrs. Elizabeth Dawson, Mrs. Daniel Beaver and Mrs. J. W. Donivan.

The basket ball team of Miss Anna Philley's Y. W. C. A. physical culture class will be coached this evening by Miss Evelyn McElroy, the new general secretary. Miss McElroy is an adept at basket ball and conducts this part of the work in physical culture. As the first term is about to close, those desirous of taking up the work are requested to make application as early as possible.

A meeting of the membership committee of the Y. W. C. A. was held this afternoon at 3 o'clock. The finance committee, Mrs. Allen J. Vesey, chairman, will meet tomorrow morning at 10:30 o'clock. Wednesday morning at 10 o'clock the official board of the association will hold a meeting, Mrs. W. J. Vesey presiding.

The Sunday afternoon devotional meeting at the Y. W. C. A. proved unusually interesting and the attendance was the largest since the visit of the state secretary. Miss Evelyn McElroy gave a very instructive and thoughtful talk on "Love," and a fine program of religious vocal and instrumental selections was rendered.

THE EVIL OF THE SALOON.

Michael Fanning's Stirring Sermons in Behalf of Temperance.

Under the auspices of the Women's Christian Temperance union, Michael J. Fanning, of Philadelphia, an orator of national reputation, addressed three large congregations at local churches yesterday. The purpose of his work is to give educational addresses increasing public interest and educating people to the importance of temperance. On Sunday morning he occupied the pulpit at the West Creighton avenue church of Christ. Sunday afternoon he spoke at the Free Methodist church and on Sunday evening at the First Methodist Episcopal church. Here he dealt with the social evil of the saloon and the financial burden it imposes upon the community.

He emphasized the fact that saloons were not business producers but parasites living on business. "They do not create business," he said, in refuting the oft repeated assertion that they promote business. Suppose you start a saloon out here in the country some place, out on the prairies, will a town spring up around it? No, but suppose you start a factory there, suppose there is a means afforded for the employment of many men, then will the town spring up, and just so quickly will come the saloon to live on the results of the labors of that town." His effort in general was a masterly arraignment of the liquor traffic and the great and growing evils resulting therefrom. His addresses in the two of churches resulted in the contribution of a generous amount for the promotion of temperance work in the state, and likewise as a result of his efforts a number have signified their intention of affiliating with the W. C. T. U.

At the morning service at the First Methodist Episcopal church, the pastor, Rev. Charles A. Rowand, gave a very impressive sermon on "An Able Savior," basing his effort on the text from Jude 24 chapter. "He is able to keep you from falling and to present you faultless before the presence of His glory with exceeding joy." At this service, four new members were received making a total of sixty-one new members as a result of the great evangelistic meetings conducted by Rev. Rowand during the month of January.

HAVE PLANS FOR A NEW SANITARIUM IN CITY

East Columbia Street Site Purchased by Owners of Old Abbott Property.

With the end in view of erecting upon it a hundred room building as a sanitarium, the Abbott Sanitarium company has purchased from Colonel D. N. Foster a piece of land with a frontage of one hundred feet directly west of the bridge abutment on East Columbia street for a consideration of $3,500. Men have been at work for several days filling in the land there and it is probable that the work of erection will be taken up early in the summer, the building to be completed and fitted out by fall.

The old Abbott Sanitarium, located east of the city, burned down three years ago, and has never been rebuilt, the company realizing that the location is a handicap. The new building will be supplied with water piped from the Abbott magnetic springs on the site of the old building and the company has been working for some time to obtain a right of way to lay its piping. For this reason every transaction in the deal has been kept as quiet as possible. The piping will run north from the old grounds past the golf links and then down the Nickel Plate right of way. Permission to lay it along the public streets in this city, where necessary, will be asked of the board of commissioners this week.

The new building will be four or five stories in height and members of the company believe that within thirty days after its completion every one of the hundred rooms will be occupied. All up-to-date sanitarium conveniences will be installed with a cement swimming basin in the basement. A cement wall will be built along side the east of the building to prevent the river wearing away the bank.

SOCIETY

About fifty young women enjoyed a beautiful valentine bridge party this afternoon at the home of Miss Emma Rurode. Valentines were used as table cards and each guest received a dainty heart-shaped valentine on which to keep her individual scores. The valentines were alike in design, and similar in message. The rooms were simply decorated with spring flowers. An immense bowl of daffodils and yellow tulips stood on the piano. On the mantels were low vases filled with sweet peas, narcissus, tulips and Japanese lilies in the library and in the living room were pots of pink azalias to lend extra color. The refreshments were elegantly served. Miss Rurode's guests included Mesdames W. H. Olds, F. L. Smock, C. G. Guild, J. H. Gilpin, A. W. Pickard, Noble Olds, Eugene Olds, F. C. Peters, James White, Alex White, W. K. Noble, Percy Olds, Edward Gilmartin, W. W. Rockhill, W. A. Fleming, Emma H. Fleming, Charles Niezer, S. B. Fleming, Walter Seavey, Harry Perfect, Will Peltier, T. R. Ruhland, Fred Shoaff, Herman Freiburger, Ben P. Weaver, Harry Hattersley, Kerr Murray Cressler, Fred McCulloch, James Haberly, F. I. Brown, George Ladd, H. G. Keegan, Ralph Yarnelle, G. W. Leslie, Ferd Urbahns, W. A. Evans, Henry Bowerfind, A. S. Bland, F. M. Smith, Fred Ash, Herbert Bond, Frank Bond, Lee Ninde, Wallace Worsley, Creighton Williams, S. D. Bond, H. C. Rockhill, Frank Lumbard, of Evanston, Ill.; Mrs. Keller, of Logansport; Misses Bertha Freeman, Della Rossell, Florence Barrett, Lavon and Maude Sperry, Agnes Fairbank, Clara Porter, Flora Peters, Ethel Naylor, Katherine and Emily Hoffman, Kate MacDougal, Edna Reuss, Helen Knight, Alice Ward, Jessamine Sale, Sadie Fleming, Carlie Olds.

Mrs. M. R. Lacy, of 454 Montgomery street, will entertain the Athena Thimble club tomorrow afternoon.

Mrs. Frank Taylor has returned from Mackinac island, where she spent several weeks with relatives.

Shiloh Chapter, Order of Eastern Star, will have a business and social meeting on Thursday. A class will be initiated.

Mr. and Mrs. Oscar Rhodes, former residents of this city who now live in Richmond, are visiting here for a few days.

Miss Dorothea Fox, of Jackson street, has issued invitations to a valentine party she will give on Saturday afternoon.

Miss Ruth Tipton, of Masterson avenue, went to Rochester today to make her home with her aunt, Mrs. W. B. Zeller.

Dr. and Mrs. Eric Crull celebrated the sixth anniversary of their wedding on Friday evening by entertaining a few friends at cards.

Mrs. Bessie Condon and daughter, Georgia, came home today from Arcanum, O., where they had been visiting friends for a week.

Miss Mayme Loeser returned today to Ligonier after spending Sunday with her aunt and uncle, Mr. and Mrs. I. Well, of West Wayne street.

The Fort Wayne Shamrocks are planning to have their annual ball on Wednesday evening, to eclipse any previous social event the club has given.

Miss Helen Goers, whose marriage to Rev. John Bauer, of Brooklyn, N. Y., will take place tomorrow afternoon, was the honor guest at a pretty party given by Miss Lulu Foellinger on Saturday.

Mrs. George Frost gave an informal but very pretty little company this afternoon to which she invited old friends to meet her sister, Mrs. Mary Lord, of Montagu, Mich.

Mr. and Mrs. George Zurbuch, of 2517 South Clinton street, have as their guests their daughter, Mrs. J. L. Donahue, and son, Jack, of Indianapolis, who will visit here about two weeks.

Mrs. Lee Cassell and daughter, Miss May, of Van Wert, and Mrs. Harry Forest, of Toledo, were guests of Mr. and Mrs. M. S. Willson, of Hoagland avenue, yesterday.

Mrs. John Hughes, of 1330 Jackson street, will entertain the Pickwick club tomorrow afternoon at the usual time. Next week Mrs. Hughes will leave for Asheville, N. C., and Jacksonville, Fla., to spend the rest of the winter.

Mr. and Mrs. A. N. Smith entertained a small company of friends last evening at their home in Wells street in honor of their fifteenth wedding anniversary. Out of town guests were Mrs. John May, Mrs. F. D. Bowers and Miss Tessie Bowers, of Beaverdam, O., and Mr. and Mrs. Henry Krick, of Monroeville.

The Daily Progress, of Pomona, Cal., gives an account of a dinner party given by Mr. and Mrs. Charles Haiber at which Mr. and Mrs. C. H. Platt, of this city, and Mr. and Mrs. Albert Crawford, Mr. and Mrs. Allen Crawford, Mr. and Mrs. J. F. Crawford and son, Wade, all one time residents of this city, were guests.

Mr. and Mrs. John Klett entertained friends at a dinner party on Saturday evening. The table and dining-room decorations were pink and white carnations. After the dinner a game of five-hundred was enjoyed. The guests were Dr. and Mrs. H. W. Pierce, Mr. and Mrs. C. F. Kettler, Mr. and Mrs. M. G. Flagle, Mr. and Mrs. Charles Greenlek and Mr. and Mrs. J. L. McKean.

A dinner party of last evening was given by Miss Erin Stier in honor of her birthday anniversary. Miss Stier's guests were Misses Muriel Noll, Ruth Tipton, Gertrude Noll, Ruth Duffy and Marie Stier. Miss Duffy celebrated her birth anniversary on Wednesday evening at her home in Force street by entertaining about the same company.

Miss Myrtle Elvyn and her mother will be guests of Mrs. Anna Siboni Ruhland during their stay in this city. Mrs. Ruhland and Miss Elvyn became warm friends two years ago when both were studying with Godowsky in France. Miss Elvyn will be heard in recital at Elks hall tomorrow night. The concert is open to the public with tickets for sale at the box office of the hall.

Henry F. Bussing, of 1420 Maumee avenue, was given a pleasant reminder of his birth anniversary on Saturday evening by a party of friends and neighbors who called to spend the evening. Cards and a supper proved entertainment that all enjoyed. There were present C. Everding, John and Henry Schmidt, H. Leuhman, W. Schwartz, W. Busselman, F. D. Brueggemann and their wives, and Misses Alma Schwartz and Emma Bradtmiller, and Messrs. H. W. Bussing and Edwin Schmidt.

Margaret Ann Keegan is celebrating her birthday anniversary today and in honor of the event a dozen little friends were invited to spend the hours from 4 to 7 o'clock with her. At the supper will be found the delight of children, a birthday cake, as well as many other good things. The guests are Dorothea Fox, Marjorie Daily, Vivian Lowe, Julia Bash, Katherine Hackett, Maribel Jackson, Dorothy Garrmire, Mary Jane Crane, Josephine Wright, Elinor Wilson and Master Robert Keegan.

Francis Cordery, of Abbott street, was surprised yesterday by a few of his friends, the occasion being the seventy-first anniversary of his birth. The members of the family of the host were in the secret and had prepared a feast for Mr. Cordery and his guests. At the table, in addition to the Cordery family, were Mr. and Mrs. D. W. Bitner and daughter, Mr. and Mrs. Frank Mercer, Mr. and Mrs. G. E. Graham and Ayer Cordery, a son of the host. Mr. Cordery received several presents appropriate to the occasion.

Miss Lena Meyers and Miss Mary O'Connor pleasantly entertained a party of their friends at Miss O'Connor's home, 2007 Lafayette street, on Saturday evening. Cards, music and a good time for all was the program until refreshments were served. Those present were Misses Pearl Miller, Anna Tamlyn, Della Meyers, Lucile Sterling, Mary McDonald, Emelia Epple, Angie Keip, Catherine O'Connor, Blanch McDonald, Frank O'Connor, Edward Emerick, Lawrence Lindes, Harry Haley, John O'Connor, Oscar Groves, Edwin Meyers, Vern Hosler and Will McDonald.

Miss Lenore Garwood, of Kinnaird avenue, celebrated her thirteenth birthday anniversary on Saturday afternoon by giving a valentine party for a few of her young friends. The children were served supper at 6 o'clock and remained a little later playing games. The birthday cake was lighted with tiny electric bulbs, thirteen in number, and at each plate was also an electric bulb. Heart-shaped boxes of candy were given as souvenirs of the day. Miss Lenore's guests were Marguerite Raeder, Margaret Foohey, Hazel Hart, Persis Bond, Marjorie and Agnes Mahurin, Mildred Miller, Marie Schoch, Edna Fee, Jane Ryason, C. Garwood and Richard Evans.

William Pape, of High street, celebrated his sixty-seventh birthday anniversary on the fourth of this month by entertaining relatives and friends at dinner, and pedro during the evening afterwards. The table was beautifully decorated with carnations and smilax and a tremendous cake which was illuminated by sixty-seven tapers. The rooms were also decorated with flowers, smilax and ferns. A club of men to which Mr. Pape belongs were present, and the gentlemen presented Mr. Pape with a handsome and useful gift. The presentation speeches were made by John Wefel and Sam Henline. Music was rendered during the evening by Misses Georgia Smith and Edna Pape, Roy Smith, Walter Pape and Fred Freimuth. The guests were Messrs. and Mesdames. E. Buuck, H. Parties for Miss Goers.

A delightful party of which Miss Lulu Foellinger, of 2533 Broadway, was hostess, was given in honor of Miss Helen Goers, of this city, and Rev. John Baur, of Brooklyn, N. Y., a bride and groom-elect of this week. The evening was spent in a very enjoyable manner, after which a delicious luncheon was served. The prevailing colors were green and white, green hooded candles send ing forth a soft glow. The decoration was composed of a large fern, about which white tissue paper was draped and under which a surprise was concealed for the prospective bride and groom, namely a handkerchief shower which was brought forth in this manner, each handkerchief being tied with ribbon and these ribbons leading to the guests' places, where hand-painted place cards bearing an emblem of "good luck" were favors. After luncheon each guest pulled his ribbon and brought forth a token of friendship and presented the same to the prospective bride and groom. The guests at this party were Misses Helen Goers, Minnie Rodenbeck, Esther Deister, Louise Nieman, Alma Goers, Augusta Foellinger, Rev. John Baur, Oscar Foellinger, William Nieman, K. H. Johns, Will Baur, Adolph and Walter Foellinger.

Another social event for Miss Goers and Rev. Baur was an elaborate dinner party given by Miss Louise and Will Nieman at their home, 236 Brackenridge street. The parlor and living room were beautifully decorated in green and white. The dining-room looked most charming, the chandelier festooned in tulle veiling and smilax, also the bride's chair over which a bridal veil was artistically draped. The table was decorated with carnations, bride roses and smilax, in the midst of which was an elaborate wedding cake, which proved when cut by the bride to contain a miscellaneous shower. Pink hooded candles lighted the table. Hand-painted "Cupids" in small gilt frames were favors for the ladies and dainty painted necktie for the gentlemen, this being the clever work of the hostess. The guests were Misses Helen Goers, Minnie Rodenbeck, Esther Deuter, Gusta and Lulu Foellinger, Rev. John Baur, Adolph and Oscar Foellinger, K. H. Johns, William Nieman and Walter Foellinger.

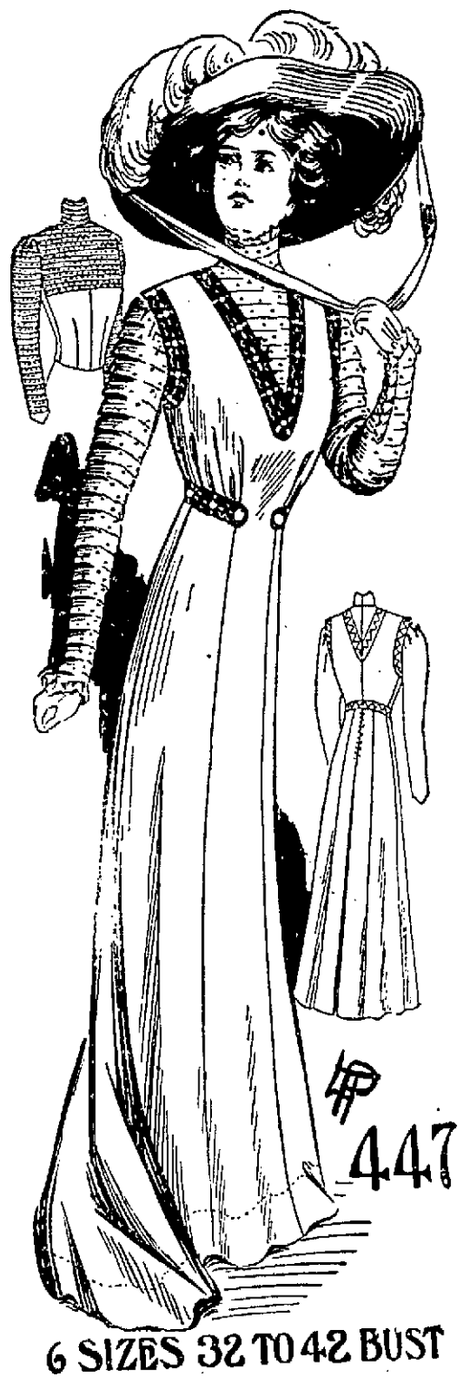
Stults—Gutscher.

Mr. S. P. Stults and Mrs. Ella N. Gutscher were married this morning at the residence of Mrs. Gutscher, 137 West Lewis street, in the presence of a few relatives. Mr. Stults for years was a successful business man of Huntington, but of late has been a loan broker with offices in Danville, Champaign and Centralia, Ill., and this city. Mrs. Gutscher is much admired by her friends for her many excellent qualities. She is the mother of Dr. R. Max Nicholson, of Denver, Col., who is identified with the city and county hospital in that city. Mr. and Mrs. Stults left over the Wabash this noon for Denver to be with Dr. Nicholson, who is seriously ill. Miss Virginia Stults, daughter of the groom, will make her home with her parents in this city after school closes in Huntington. Mr. and Mrs. Stults will live at 137 West Lewis street.

Advance Model for Princess Dress



6 SIZES 32 TO 42 BUST

The style and simplicity of the garment illustrated are at once evident, and should prove an incentive for women to copy. The pattern is cut in six sizes, from thirty-two to forty-two inches bust measure. To make such a frock for the average woman requires seven and one-quarter yards of material thirty-six inches wide or five and three-quarters yards forty-four inches in width. If it is trimmed as represented, four yards of banding will be needed. The guimpe is made separately and requires one and three-quarters yards of goods thirty-six inches wide.

Too much cannot be written in favor of this model, for the home sewer may copy it without hesitancy as to whether the results of her efforts will be satisfactory. Its simplicity of line and construction assure success and make it becoming to either stout or slender figures. The skirt has six gores and is joined to the waist at the sides and back under a trimming belt. At the front the body and skirt panel are in one. The pattern provides for the skirt being finished either with a short sweep or in walking length.

This design can be effectively carried out in coton, silk or woolen fabrics, and if made with a guimpe of sheer goods, such as net or lace, it will be decidedly dressy. For immediate wear, a henrietta, cashmere or foulard would be serviceable in one of the new shades of blue. The yoke could be of tucked net and the trimming bands of embroidery worked in metallic tones.

Brown rajah or pongee having the modish greenish tinge would also be effective and could be worn at this season.

For wear later in the year, linens, ducks, piques and the new cotton poplins could be used.

The guimpe for wear with such materials should be of heavy cluny lace, baby Irish or allover Swiss embroidery.

A pretty effect may be obtained by tucking sheer batiste and embroidery over the tucks.

On the front panel and trimming bands of the costume the new rat-tail embroidery would be effective if done in self colors.

NEW YOUNG MEN'S CLUB.

Organization Formed to Be Known as the "Friar Club of Fort Wayne."

The "Friar Club of Fort Wayne" is the name of a new organization of young men of this city and the club will soon close a lease for quarters in the center of the city. The purpose of the organization is merely to promote a feeling of fraternalism among the members. Charles Pask has been made the president, while Arnold Curdes is vice president, and Frank Smitley and William Gill, treasurer and secretary respectively. Dr. G. A. Smith, Quait Davis and John Wass comprise an executive board and the organization is to be run on strictly business principles. The membership is limited to one hundred, but the roll will not be closed until the 1st of March.

RELIEF UNION REPORT.

The Relief Union report for January is as follows: Number of applicants for aid, 35; 8 of these received groceries, 9 clothing, 2 shoes and clothing, 1 fuel, and 2 shoes and groceries. Twelve women and 1 man were assisted through the workroom of the Associated Charities. Sixty days work was furnished the twelve women, 5 of them received groceries for pay, 3 received clothing, 1 groceries and fuel, and 3 groceries, clothing and shoes; 1 man received clothing for work.

There were 79 telephone calls and 19 callers at the office. Donations were taken up for the society from the Franklin school, Bloomingdale and Rudisill schools January 26. Seventy-eight packages of clothing were donated and groceries and fruit amounting to $18.42, the market price. Also 5 packages of clothing, 1 package of shoes and 2 packages of quilt pieces were given to the society by friends interested in the work.

Unique Summer Gloves

PHOTO BY JOEL FEDER.

NIAGARA SILK GLOVES FOR THE SUMMER

The new semi-barbaric medieval influence in dress is making itself felt in dozens of ways, overlooked by those who merely follow the fashions, but important to those who keep watch of new style indications. One of these coming ornate touches is the embroidery on silk gloves.

The smartest makes of summer gloves show embroideries done in Oriental looking designs covering the upper portion of the arm. These gloves come in black with white embroideries, in white with pure white embroideries and in various colored effects. They must be drawn up over the long, close fitting sleeves of summer gowns.

Mrs. Storr, of South Clinton street, entertained a few ladies this afternoon in honor of Mrs. Dean Johnson. Mr. and Mrs. Johnson are on their wedding trip and are enroute to California where Mr. Johnson is in business.

Sentinel's Cook Book

THE SENTINEL NOW BEGINS ITS DEPARTMENT OF RECIPES OF ICES, ICE CREAMS, ETC., FOR DESSERTS.

PINEAPPLE PARFAIT

Cook for five minutes over the fire one cup granulated sugar and a quarter cup of water. Beat the yolks of six eggs until lemon colored and thick, then add the syrup little by little, constantly beating. Cook in a double boiler until the custard coats the spoon, then strain and beat until cold. Add two cupfuls pineapple pulp pressed through a sieve and fold in a pint of cream whipped stiff. Pack and bury in the ice and salt mixture.

RED RASPBERRY AND CURRANT ICE

To prepare this use the juice from one quart currants and a pint of red raspberries. Press through a cheesecloth bag, add three cups sugar, a pint of water and a tablespoonful gelatine softened in a little cold water, then dissolved in boiling water. Freeze, using a little more salt than in freezing cream. Serve in tall glasses with a spoonful whipped cream on each portion and a few raspberries on top.

STRAWBERRY PARFAIT

Hull, wash and drain some firm, sweet berries. Press through a strainer enough to give about two-thirds of a cup of pulp. Cook together in a granite saucepan one cupful granulated sugar and a half cupful of water until it spins a thread. Do not stir while cooking. Whip two whites of eggs stiff, then pour the hot syrup over them and continue beating until the mixture is cold. As it thickens add the crushed berries a spoonful at a time. Have ready a pint of cream whipped to a solid froth, stir lightly into the egg and berry mixture, then pack in covered mould and bury in ice and salt, equal proportions, leaving it for several hours.

HOLD-OUTS WILL BE GIVEN COLD DEAL IN SPRING

The Men Who Demand Big Money are oBoked for Big Surprises.

Terre Haute, Ind., Feb. 8.—Members of the "Hold-Out Club" will receive scant attention from managers of Central league teams this year. The fact that the managers took such a determined stand on salary proposition probably will prompt most of the players who fuss about the terms of their contracts to sign with little delay. The places of independent fellows will be filled by recruits and of these aspiring youngsters there are hundreds seeking jobs in the Central league.

Men on reserve by Central league teams who make a demand for increased salaries, are apt to shift themselves out in the cold. The managers are going on the theory that if the players are worth more than they can afford to pay they should be in faster league, and some of the fellows who insist on a little sugar will be given opportunities to hunt other jobs.

Then the fact that the big leagues have more men than they know what to do with is another thing that has to do with the conditions which brought about a general scaling down in salaries. The big leagues cannot afford to pay the salaries they have been allowing and several stars are being permitted to kick themselves out of the game.

"These fellows are all wrong about holding out for big salaries," said President L. D. Smith yesterday. "Stars are good to have on a team, but the conditions this year will not justify managers paying any enormous salaries. However, most players are reasonable and only in a few instances will they cause trouble this year."

The report that Cecil Ferguson, pitcher for the Boston Nationals, had clashed with President Dovey because a big increase did not come along with this year's contract has brought this matter to local attention. Fergy is a clever twirler and did good work for Boston last year, but he says that the differences between himself and the team owner are of little consequence. The probabilities are that Cecil will sign and deliver his contract in good time.

Most of the fans can remember when Fergy was the terror of the town lot ball teams. Aggie Grant discovered some real merit in the crude youngster and a year under the training of the foxy South Bend manager made the husky blonde ready for faster company. From Louisville to the New York Giants and finally to Boston as one of the strongest pitchers for the Doves has been a rapid rise for the Terre Haute boy, but he has earned the promotion and he has it in him to show with the best in the business.

Fergy is scheduled to meet Dovey in Chicago next week and says he expects to have everything settled at the conference. Cecil will prod into the Windy City when the big league magnates gather, February 16, for the schedule meeting. He has arranged to meet Dovey at that time and talk over little business affairs.

There are only five men on the Terre Haute reserve list to hear from and these players are expected to come through with their contracts in good time. In fact most of them have assured Smith that there would be nothing in the way of a mutual agreement this year. Of course, if any of the old players fail to come into the fold it is believed that some of the thirty recruits will be able to fill the holes.

The Independents and bush leagues developed a lot of fast players last year and many of these men are seeking places in the Central league. Some of them will be able to displace older men in the league and others will be good enough to fill any of the vacancies caused by "hold outs."

"We have signed thirty players and refused to sign as many more," said Locie. "Most of the recruits are real good players so we feel that the prospect for a fast team is encouraging. Other teams in the league have taken on many new players and the conditions are such that we must use as many of these fellows as make good.

"Lots of these new players are going to make good. Just as soon as they are worth more money than can be paid in the Central league they will be picked up by the big leagues. This fact has encouraged the major league owners to assert their independence and refuse large increases in salaries."

COMING FROM THE PROVINCES.

Shamrocks Will Have Big Attendance at Annual Dance.

Van Wert, Auburn, Garrett, Huntington and other towns surrounding Fort Wayne will contribute the big crowd expected at the Shamrock dance at Mulqueen's Wednesday night. The program contemplates dancing enough to last from 9 o'clock to midnight and Shober's orchestra will supply the music for the occasion. Owner Claude H. Varnell, of the Fort Wayne team, will make the trip from Wheeling to be present at the dance.

"NOODLES" STILL IN THE GAME.

Richmond, Ind., Feb. 8.—"Noodles" Hahn, the old major league pitcher, is not to retire from baseball altogether. The veteran has signed a contract with the Hamilton, O., team of the Kentucky-Indiana-Ohio league, and will be in the box for that aggregation. Hahn is counted on to be a big help to Hamilton to land the pennant.

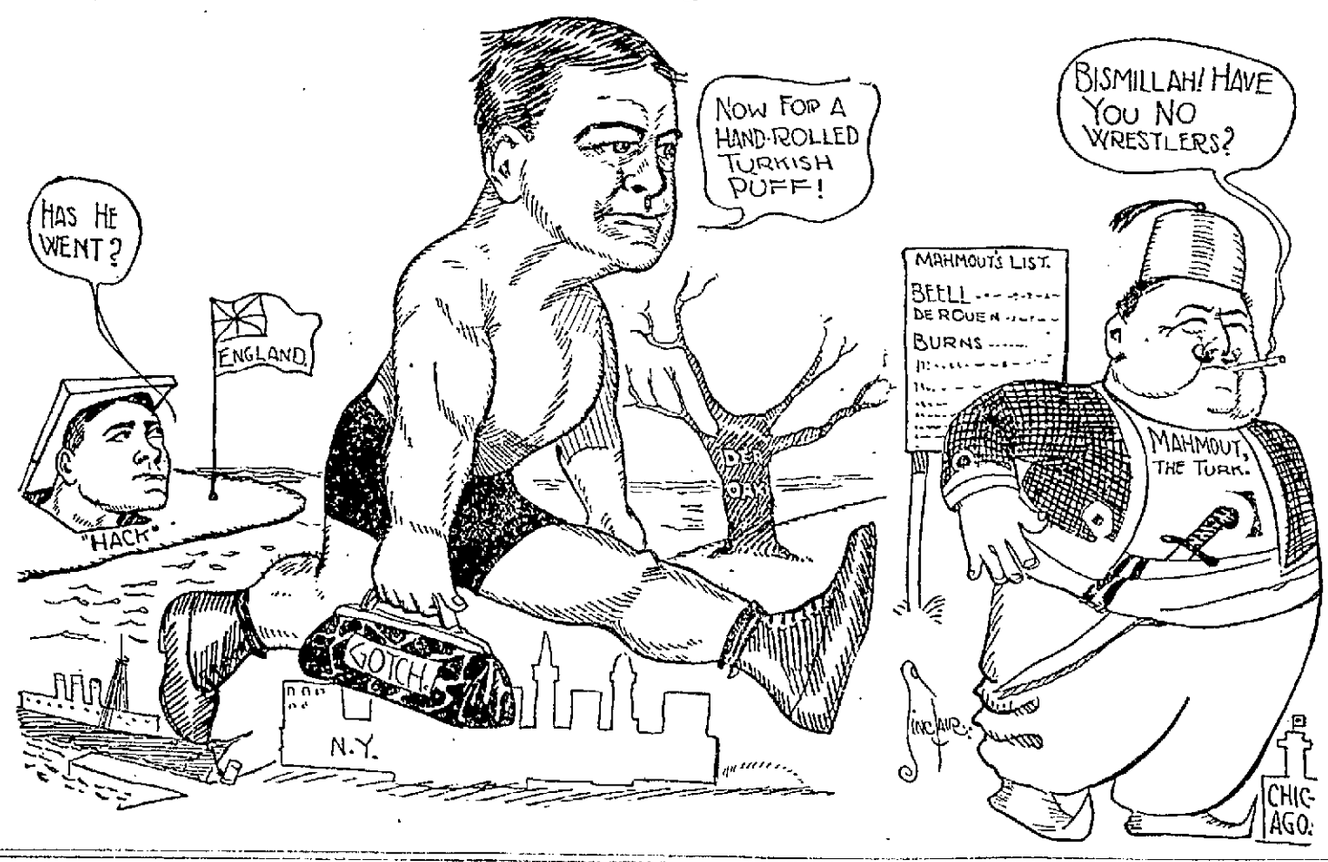
Gotch Hurries Home to Repeal the Turkish Invasion



STUDENTS ADD ONE MORE VICTORY TO LIST

Winona Was Not in Class and oCncordia Has Easy Going.

If the Concordia college basketball team expects to hold public interest the management must seek stronger teams for the remaining weeks of the season. This was clearly demonstrated in the matinee affair with Winona Saturday in which the Concordia squad won a 58 to 17 victory.

The management is seeking strong teams, but for some reason those that have been booked have not shown the form necessary to give the college five a good hard, scrappy game and the battles have all been walkovers. In event a game is booked with Notre Dame the metal of the Concordians can be tested.

Winona was regarded as one of the best teams in this part of the state and came to Fort Wayne with the reputation of being somewhat of a basketball aggregation. It would have hustled the visitors to have beaten the college second five.

True Concordia had the advantage of playing on the home floor and before a home crowd, but there was never a minute of play that Winona had any sort of a chance to win. The passing of the visitors was wild and their basket shooting was worse, although a strong defensive game on the part of the local squad prevented any extensive flinging at the cage.

Galimeyer was given a chance in the second half and he played in good style for the college boys during the second half when he went in for Hildner. Bricker was the only one of the visiting five who played any sort of a game. The attendance was smaller than usual on account of the fact that the game was held during the afternoon instead of in the evening. The line-up and score.

PERRY TO TOLEDO.

Hank Perry, with Canton during the past two seasons, has been sold to Bill Armour for his Toledo club.

Perry was one of the best outfielders in the Ohio-Penn. league last season, hitting hard and fielding well.

Three seasons ago Perry was with Indianapolis in the American association. He was sent from there to Canton.

Chamberlain's Cough Remedy the Most Popular Because it is the Best.

"I have sold Chamberlain's Cough Remedy for the past eight years and find it to be one of the best selling medicines on the market. For babies and young children there is nothing better in the line of cough syrups," says Paul Allen, Plain Dealing, La. This remedy not only cures the coughs, colds and croup so common among young children, but is pleasant and safe for them to take. For sale by all druggists.

GRAND RAPIDS ONLY TEAM WITHOUT A MANAGER

Brotherton Promises to Fill Up the Gap During the Week.

Grand Rapids is the only Central league city without a manager for the present season and Charles F. Brotherton has promised that during the present week he will make the announcement that will fill the only managerial gap on the circuit. It has generally been figured that Bobbie Lowe will be the man for the job and fandom in the furniture city are hoping that the veteran will be back on the job as he demonstrated his ability last season, but there may be a dark horse and the announcement is likely to cause a surprise.

There will be at least three new managerial faces in the league next season and possibly four as the Stag outfit may do duty under a man who has never been on the club's payroll before. In any event the league will be better off than it was a year ago and some better ball ought to be seen in the pennant fight of 1909 than the organization has ever been able to produce.

Jack Hendricks, Bade Myers, Aggie Grant and Punch Knoll have already demonstrated that they are there as leaders by the fact that each of them has led a pennant winning team except Grant who has won the near-flag a couple of times or so and is out after the real article this year. He is framing up a good team and Owner Bert Annis has sent him out with instructions to ride hard to the finish and bring home a hunting along about the middle of September.

Roy Montgomery, the new Zanesville manager, entered upon his duties with a vim and vigor that gave promise of great things and he has already lined up a bunch of youngsters from which he expects to fill up the gaps in his team and to strengthen up the weak places. His managerial experience is a bit limited, although he showed well in the Cotton States league and the team owners believe that he will give the infant town a better team than it had last year.

Big Bill Phillips has hardly had time to clear for action down at Wheeling, but he is an old head, has shown by his work at East Liverpool that he knows his business and just at this time the Wheeling aggregation looks better than it has since the city became part and parcel of the Central league.

The club has had plenty of good material, but nobody to develop it and has suffered greatly in consequence. The new manager will relieve the city of this drawback and will put practically a new club in the field. Of course, there will be some old faces, but not many of them.

Cuppy Groeschow managed the Grand Rapids team for a time, but he could not agree with the Phil Arnold mode of government and he was dethroned after a short experience. He has a sixth interest in the Terre Haute team, an intimate knowledge of the Central league and there is no reason why he should not succeed in showing the patrons a better article of ball than they have had since Frank Warrender fought it out with Fort Wayne for a pennant several years ago.

There are no circuit changes probable in the league this season and the organization starts under more favorable conditions than at any time since it was organized. It is the model of the minors in the matter of government and there has been unusual activity during the winter months among the club owners who have been busy picking up promising players wherever they could be landed.

HART WILL FIGHT BARRY.

Former Heavyweight Champion Matched at New Orleans.

New Orleans, La., Feb. 8.—Marvin Hart, the Kentucy heavyweight, who was once heavyweight champion of the world until he lost to Tommy Burns, has been matched for a fight at the West Side Athletic club in McDonoughville on the night of February 24, with Jimmy Barry, of Montana.

The Hart-Barry fight was scheduled for February 15, at Hot Springs. When the local club heard of the action of the governor of Arkansas in the matter of stopping all bouts pending or contemplated, it wired the principals an attractive offer to appear here. Both men telegraphed their acceptance.

MOTOR SPEEDWAY TO BE LOCATED AT CAPITAL

Indianapolis to Have a Great Track for the Speed Cranks.

Indianapolis, Ind., Feb. 8.—The much talked of motor speedway in Indiana to vie with the Vanderbilt and Savannah courses in attracting the world's prominent automobile racers materialized when the Indianapolis Motor Speedway company, capital $250,000, filed its articles of incorporation.

The course is to be located on the northwestern outskirts of Indianapolis. Deeds for the property, covering 328 acres, have already been secured, and an engineer's office has been established on the site, which is now being surveyed. The track is only four and a half miles from the center of the city and is reached by train and trolley.

Contract has been made with the Aero Club of America—the national balloon organization—to have the course finished by June 1 in order to serve as a starting point of the next national balloon meet, which is to heid in June. The speedway company is to lay four miles of six-inch pipe from Indianapolis to supply the balloons with gas.

Eight contestants have already entered the national race, including A. Holland Forbes of New York, who, in company with Augustus Post, miraculously escaped unhurt from a fall of over 3,000 feet when the ill-fated balloon Conqueror burst over Berlin in the international race last fall. The Conqueror has been patched up since the accident, and in it Forbes, who is president of the national association, will again seek the clouds.

The prevailing winds at Indianapolis are usually either north or east, so that the terminus of the race is expected to be either Nova Scotia or the Atlantic coast of the United States.

MAY NOT VOTE ON SEVEN GAMES.

"Big Eight" Colleges Show Coolness on Balloting on Question.

Chicago, Ill., Feb. 8.—More complications in the "big eight" football world relative to the seven-game gridiron schedule are expected by Maroon rooters as the result of the coolness with which the Midway board's request for a mailed vote on the proposition has been received by the other colleges. Should the conference schools fail to ballot on the question many Maroon supporters believe the Chicago board will retain the five-game schedule after all.

When the Maroon board formally requested such a vote to be taken it was believed that the majority of the schools would at once send in their favorable votes. Since some of the "big eight" notably Wisconsin, believe Chicago's request was uncalled for, it is likely that the whole vote may come to nothing, the rooters fear.

Members of the Maroon board explained yesterday that they asked for a vote because they had attached a clause to their affirmative vote last year providing that the schedule should revert to five games this season. None of the other schools made any such reservation, however, and it appears to the Maroons that they are likely to refuse to ballot.

Coach A. A. Stagg said yesterday that he believed Professor Moran, of Purdue, chairman of the conference, would issue an order for a vote soon. The Maroons have not received such a call yet, however, and it is believed that Professor Moran may not see fit to take action, and that if he does some of the schools will not reply, since they are already on record in favor of seven games, with the exception of Wisconsin.

In case this situation comes about the brunt of it will be upon the Maroon rooters unless the Chicago board holds another conclave and decides to settle the matter for themselves, as the other schools have done. With the majority of the schools known to be in favor of seven games, the Maroons hope the board will take it upon itself to fall into line even if a mailed vote does not materialize.

CARSON MAY DECIDE QUESTION.

Votes in Central League Seem to Be Divided on Waiver Rule.

South Bend, Ind., Feb. 8.—Central league magnates are training for a big fight when they meet at Terre Haute March 8. The source of trouble is the proposed adoption of the waiver rule. The present indications are that President Carson will be the man to decide the question. A week ago it appeared that most of the league directors had been won over to the adoption of the rule, but there is now evidence that the vote will stand 4 to 4. The fight against the adoption of the rule is being led by W. W. Irwin and Ben Perkins, owners of the Wheeling team. Seconding them, judging from word which comes from Grand Rapids, is C. F. Brotherton, the new magnate in the Central.

A Dog That Is a Terror to Burglars

"NO THOROUGHFARE" by PERCIVAL ROSSEAU.
(A MASTIFF WHO HAS CAPTURED MORE THAN ONE HOUSEBREAKER.)

New York, Feb. 8.—Dogs in the excitement of the chase, dogs at ease and dogs in urban surroundings are shown in twenty canvases by a distinguished painteer of animals, Mr. Percival Rosseau, which were placed on exhibition in the Knoedler galleries.

Mr. Rosseau began his career as a figure painter, and his Ariadne won a medal, but when he painted the hound that accompanied Diana he found his specialty. He has owned all breeds of dogs and he finds delight in presenting them in all their moods.

There are two paintings of more than ordinary interest. "No Thoroughfares" shows good dog Minos, a mastiff. Minos was a member of the artist's household at Rollebeise, near Paris. Mr. Rosseau one afternoon saw a man drop from a stone wall into his garden. Minos was after him in a second. The invader cleared the wall and the mastiff missed him by six inches. Mr. Rosseau opened a door and the animal, after a three mile chase, caught the fugative and gave him to a gendarme. The prisoner was an escaped convict, and in his pockets was jewelry taken from houses in the neighborhood of the artist's home. In Italy Minos caught two more burglars.

Story Corner for Base Ball Fans

"Did I ever tell you about 'Catapult' Catheron, the demon pitcher," asked "Sport" Lowrey, ex-baseball manager. "No? Well he was a wonder and but for an accident he'd be performing in fast company now.

"I picked up Catherton in '89 when I had the Kiowas and he didn't lose a game all season. He came to me one day, a great big clumsy looking fellow about twenty with a phiz that spelled 'simplicity.' To look at him you'd be sure that if he was left in a pasture the cattle would eat him, he looked so green.

"I sent him out to work with old 'Pink' Lawson and sat where I could watch him. He looked bad in repose, but when he pitched—well, the less said about it the better. He had a funny, jerky, overhand motion and every time he let go the ball I thought his arm would come off. But, son, he sure had so much speed that he scared me. When he let go a fast ball he made 'Pink' shake like a bowl of gelatin. His curve ball was conspicuous by its absence, but as 'Pink' said: 'Any one could who had as much smoke chuck away the curve.' Say he handed them up so fast that the ball looked like a peewee marble.

"When I saw the control the big fellow had—and he could hit a playing card at fifty feet nine times out of ten, I signed him and what he did that year was shameful. All he had to do to win was to walk into the box.

"But the explosion came on the last day of the season and it furnished proof of the old saying that 'it is but a step from the sublime to the ridiculous.' One moment 'Catapult' was winging them over like bullets. The next he was a mechanical wreck.

"I spoke of the peculiar, jerky delivery 'Catapult' had. Well, along in the eighth inning, when he was smoking them over we heard a whirring sound as if a big clock had broken loose, and a minute later 'Catapult' let out a groan and fell to the ground. We ran to him and found his right arm broken, but so mixed up with steel springs, rods and straps that it was half an hour before we could untie him. He had been using the springs to give him his speed."

Wicker Bodices for Whitewashed Schoolgirls

BELLES OF BECHUANALAND BEFORE MARRIAGE.
FROM THE SKETCH.

Before the Bogale girl is recognized as eligible for marriage she has to go through much hardship and privation for a period varying between six weeks and three months, according to the Sketch. It is particularly dangerous for a white man to go near the schools during this period, and the schools themselves are prohibited in some parts of Africa. The face, arms and legs of the girl are painted white, and she wears the extraordinary costume that is shown in our photograph. The wicker bodice is worn next to the skin and is wound round and round the person. It is believed that this photograph is unique.

ECZEMA

DR. WELLS SCORES NEW SUCCESSES.

Among the hundreds of people in this vicinity who have been cured of bad cases of skin diseases, these two remarkable cases are fair samples of what can be accomplished by the use of Light Therapy in skillful hands:

Mrs. Sharpenberg, of Maples, says: "I had a very bad case of eczema on the face, arms and ankles for twenty-three years. I was cured by Dr. H. O. Wells, of Fort Wayne, in a short time. After several months there has been no return of the disease.
MRS. AUGUST SHARPENBERG."

Mr. Maddox, a well known citizen of Fort Wayne, says:

"I had eczema in a most annoying form for over twenty years. I tried every remedy I ever heard of with no benefit; in fact they did more harm than good. Dr. Wells cured me in a very satisfactory manner and I recommend his treatment to others.

In order to aid the good roads movement, Morgan Ware, a pioneer resident of Huntington, has offered to pay the expense of rolling the first two miles of gravel road that any gravel road superintendent or township trustee will build.

The mangled remains of an unknown man who had been killed by a Lake Shore train were found on the Lake Shore tracks near Brimfield, Noble county, Saturday. The man was apparently of middle age, but nothing was discovered on his person that might serve as a clue to identification.

It has just been discovered that no return was ever made of the marriage of George W. Aldrich and Miss Alvina DeLong, at Muncie, eight years ago upon a license issued in Allen county. Justice Moreland, who performed the ceremony, now resides in California. An effort will be made to have the record completed according to law.

George Gross, who escaped from the Logansport insane hospital Friday night, boarded a Fort Wayne and Wabash Valley interurban car bound for Lafayette Saturday morning and badly frightened the passengers. The conductor and motorman notified Lafayette authorities by telephone and they took the insane man into custody when the car arrived at Lafayette.

When Rev. Earl Naftzger, of Hartford City, leaves March 1 for his new pastorate at Bellingham, Wash., it will mean the disbanding of the famous North Indiana conference quartet, which has sang at many religious gatherings in the northern half of the state. The members are four Methodist Episcopal clergymen—Rev. L. J. Naftzger, of Muncie; Rev. Earl Naftzger, of Hartford City; Rev. D. H. Guild, of Wabash, and Rev. Fred Thornburg, of Knightstown.

MAY LENGTHEN THE SPAN OF LIFE BY MANY YEARS

Expenditure of Money by Insurance Companies Strongly Urged.

New York, Feb. 8.—Dr. Irving Fisher, of Yale university, today publicly proposed the expenditure of money by life insurance companies in a campaign of education to improve hygienic conditions throughout the United States. He said the practical application of all the reforms now known to modern hygiene would increase the span of human life in America more than fifteen years—or over one-third.

This decreased mortality, he said, would so lessen the cost of insurance that the returns to policy holders would be many times more than the original expenditure. There also would be an economic gain through the prolongation of trained men.

Dr. Fisher was speaking to a meeting of the Association of Life Insurance Presidents.

The insurance men are unanimous in believing it would pay life insurance companies to engage in the saving of lives," said Dr. Fisher. "So obvious does this seem that the question arise, why have insurance companies never attempted it before?

Fallacies Delayed the Work.

"There seem to be three explanations: First, the continuance of the tradition that human mortality followed a nearly invariable law. Second, the knowledge that human life is greatly extensible through public and private hygiene was possessed by few, and third, it seemed too large a task for any one company to prolong the life of the whole country.

"A fall of the death rate promptly follows sanitation. Col. Gorgas cut the death rate in Havana in two. The New York death rate responded at once to Col. Waring's clean streets, and that of Rochester to Dr. Goler's milk crusade. And now it is announced that the death rate of New York is 16.5, the lowest on record—a result, in all human probability, due to the hygienic work of Dr. Darlington, Nathan Straus and the public agitation for health prosecuted by the New York papers, allied with the health work of the committee of 100 and the Tuberculosis association.

"There is still enormous room for improvement. A report which I have compiled for the conservation commission, based on data contributed from acknowledged American authorities, shows that human life in America could, by the adoption of hygiene reforms already known and entirely practicable, be lengthened by over one-third—that is, over 15 years.

Diseases That Are Preventable.

"Tuberculosis is known to be preventable. In my table it is entered as 75 per cent. preventable; pneumonia as 45 per cent. preventable; typhoid as 85 per cent.; diphtheria, 70 per cent.

"These conservative figures are among the highest allowed. Many diseases, such as cancer, are recorded in the table as zero per cent. preventable, although the best expert opinion would allow some degree of precentability if prevention begins early enough in life.

"On the basis of these ratios of preventability, or, rather, postponibility of death, has been computed the possible extension of the average human life by saving lives now lost by preventable diseases. This calculation is made on the assumption that those thus saved from death enjoy as their new lease of life only the expectation of life now belonging to their respective ages. This assumption is conservative, for it means that lives once saved shall receive no further benefits from improved mortality, but shall die off at the old rate of mortality.

"Even on these safe premises of partial postponiability of deaths we find that about two years of the possible lengthening of human life would be due to the elimination of preventable tuberculosis, six-tenths of a year to the elimination of preventable typhoid, five-tenths to the elimination of preventable diphtheria, nine-tenths to the elimination of preventable accidents. It is estimated that at least eight years could be added to human life by securing reasonably pure air, water and milk.

Money Used in Education.

"According to the plans I have in mind the money which the life insurance companies would invest in life saving would not be in hospitals or sanatoria, but in the education of the public, and especially their policy holders, in health matters, and the joining in every legitimate way to improve the public health offices and services in the municipalities, states and the federal government.

"Just as fire insurance companies endeavor to secure in municipalities adequate fire protection, so life insurance companies might properly endeavor to secure adequate municipal health protection, and they might likewise bring their influence to bear to secure the passage of model health laws by our states in respect to slaughter houses, pure food and other health reforms. It is agreed by all competent judges that there is now a great and needless waste of human life, and it is obvious that the financial weight of this waste falls largely on the policyholders."

Dr. Fisher suggested the committee of one hundred on national health as an agency through which the education for hygienic reforms could be conducted. He is president of that organization, which is carrying on an extensive movement throughout the country to improve living conditions. Dr. Fisher has been professor of political economy at Yale since 1898.

Walk to Your Meals Like a Man

Eat What You Will And Learn to Enjoy Food and to Digest It.

HERE'S THE SECRET, FREE.

Make up your mind after reading this that you will let the next meal hold no terrors for you.

You can enjoy it. You can digest it. All that is needed is to give nature the juices she lacks, to give the stomach a chance to remove the terrible irritating acids, alkalies and gases which turn food and nourishment into gas and decomposition.

When a system is run down and depleted it needs building up. Ashes won't rekindle a fire and wrong digestive fluids will not take proper juices from food no matter how good the food is.

Is this common sense? Men spend years and even life experimenting on the human system, what it lacks in disease and what it needs in perfection. This knowledge is known to every physician or should be. Stuart's Dyspepsia Tablets are compressed natural vegetable and fruit essences which when mixed with the saliva of the mouth go into the stomach capable of digesting a full meal and they digest it to the uttermost shred. Then such a meal does a man good and it gives to him the means to overcome stomach troubles. Forty thousand physicians use these tablets and charge you for writing a testimonial of their merit which they call a prescription. Any druggist in America or Canada will sell you a box for 50c. Think of it. Every druggist carries them. Here's common sense again. Don't this tell you there is merit? Go to your druggist today, buy a package and walk up to your meals knowing that they will not cause you pain. Send us your name and address and we will send you a trial package by mail free. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

Do you use an atomizer in treating Nasal Catarrh? If so you will appreciate Ely's Liquid Cream Balm, the quickest and surest remedy for this disease. In all curative properties it is identical with the solid Cream Balm, which is so famous and so successful in overcoming Catarrh, Hay Fever and Cold in the head. There is relief in the first dash of spray upon the heated sensitive air-passages. All druggists, 75c., including spraying tube, or mailed by Ely Bros., 56 Warren St., New York.

S.S.S. THE REMEDY FOR SORES AND ULCERS

The combination of healthful vegetable ingredients of which S. S. S. is composed, makes it an especially desirable and effective remedy in the treatment of sores and ulcers of every kind. Since an impure condition of the blood is responsible for the trouble, a medicine that can purify the blood is the only hope of a successful cure; and it should be a medicine that not only cleanses the circulation, but one that at the same time restores the blood to its normal, rich, nutritive condition. S. S. S. is just such a remedy. It is made entirely of healing, cleansing vegetable properties, extracted from nature's roots, herbs and barks of the forest and fields. It has long been recognized as the greatest of all blood purifiers, possessing the qualities necessary to remove every impurity in the blood. When S. S. S. has purified the circulation, and strengthened and enriched it, sores and ulcers heal readily and surely, because they are no longer fed and kept open by a continual discharge into them of irritating disease-laden matter from the blood. S. S. S. brings about a healthy condition of the flesh by supplying it with rich, nourishing blood and makes a permanent and lasting cure. Book on Sores and Ulcers and any medical advice mailed free to all who write.

RENEWS CONTRACT WITH GENERAL ELECTRIC COMPANY

General Manager J. J. Wood to Remain Head of the Local Plant.

James J. Wood, for nineteen years manager of the Fort Wayne Electric works, has renewed his contract with the General Electric company, the owners of the plant on Broadway, covering a period of ten years from May 1, 1909, when his present contract expires. This means that the local plant will receive the benefits of all of the inventions Mr. Wood may bring out within the next ten years, as it has in the past decade. During his connection with the local plant Mr. Wood has brought out 207 patents, all of which are now the property of the General Electric company. It is these patents which have given to the Fort Wayne Electric company's plant the name of the home of the "Wood System" of electrical apparatus and machinery, and it is known as such the world over. Mr. Wood has just returned from the east, where he was called by the General Electric company officials and urged to renew his contract before the expiration of the old. He wished to defer the matter awhile, in order that he might enjoy a season of rest, but the General Electric officials were anxious to settle the matter at this time, in order that they might proceed with plans for the future and Mr. Wood consented. It is the intention of the General Electric company to go ahead with the improvement planned for the Fort Wayne plant as soon as normal conditions in the country have been reached. These plans contemplate the erection of a building, which will double the floor space of the factory and make it one of the greatest labor giving establishments in Fort Wayne. Mr. Wood was not inclined to say much concerning the new contract. "The terms are entirely satisfactory to me," he remarked.

FRANK RODENBAUGH HURT.

Passenger Brakeman Sustains Fracture of Right Hip.

J. F. Rodenbaugh, one of the old passenger brakemen in point of service on the Pennsylvania, is lying on a cot at St. Joseph's hospital with a fractured right hip bone. He was struck by the end of the pilot beam of the engine which brought in No. 8 last evening and thrown beneath an engine which was standing on an adjoining track, from whence he was taken by Sheriff Reichelderfer, who was a witness of the accident, asssisted by some of the railway men. In addition to the fractured bone, Mr. Rodenbaugh received some cuts and abrasions on the face and head, but luckily none of a serious character and he was not hurt internally. Mr. Rodenbaugh was at the depot to go out with passenger train No. 11, due to leave at 8:10 o'clock, and started to run across the tracks ahead of the oncoming train, believing he had plenty of time to get across in safety. Witnesses called and screamed, however, causing him to hesitate at a very inopportune moment, and he was struck as stated. Mr. Rodenbaugh resides at 519 East Pontiac street.

WANT HARMON REMOVED.

Bondholders Ask That Herrick Be C., H. & D. Receiver.

Cincinnati, Feb. 8.—The protest of the bondholders against the continuance of Governor Harmon as sole receiver of the Cincinnati, Hamilton and Dayton railway was set for hearing before United States Circuit Judge Lurton this afternoon, having been postponed from last week.

Five weeks ago, just before being inaugurated governor of Ohio, Receiver Harmon tendered his resignation to Judge Lurton, who, however, after due consideration, refused to accept it and induced Receiver Harmon to continue in the position at least until the first of May. Since that time mortgage bondholders, whose holdings aggregate nearly $50,000,000 out of a total of $63,000,000, have demanded that they have representation in the receivership, claiming that as governor of Ohio the present receiver is unable to give his undivided attention to the work. These protestants want former Gov. Herrick to be named as a co-receiver and arguments along that line were expected before the hearing opened today.

SAD NEWS FROM SCOTLAND.

Cousar Brothers Hear of Death of Father.

A letter yesterday brought to Assistant Superintendent C. A. Cousar and William Cousar, of the Bass foundry, the shocking news that their father, Frank Cousar, died following a surgical operation for cancer in a hospital at Kilmarnoch, Scotland, on Sunday, January 24. The deceased was upwards of seventy years old and surviving him are the wife, three sons and three daughters. The children are Charles A. and William, of Fort Wayne, and Mrs. McGovern, Mrs. Wilson, Mrs. Dalzell and Neil Cousar, of Kilmarnoch, Scotland. Last September a son, who lived in Scotland, died suddenly, the brothers in this city not hearing of his illness until the announcement of his death reached them.

KNOCKED FROM CAR.

F. C. Herbst Has Leg Broken at Collett.

F. C. Herbst, a freight brakeman on the Grand Rapids and Indiana road, was knocked from a car while hanging on its side and trying to locate some trouble with one of the trucks. He was struck by the wing of a cattle guard at Collett, near Portland, and the blow fractured his right leg. Mr. Herbst is a young man and had been working only a few weeks for the railway company. He is married and resides in Bluffton, where he was taken yesterday.

ENGINEER KILLED.

John Cooper Falls From His Cab at Simcoe.

John Cooper, a freight engineer on the Buffalo division of the Wabash system and known to many of the employes who run in and out of Detroit, was hurt so badly by a fall from his cab yesterday that he died soon afterwards. The accident happened while the train was moving rapidly near Simcoe, Ont. Engineer Cooper resided in St. Thomas.

FOUNDRY BOYS WON GAME.

In the third game of bowling between teams composed of the main office force and the foundry office force at the Bass works, the main office boys went down in defeat, though they made a very creditable showing in the way of scores. This was the third in the series of five games to be played by the teams and the defeat of the office boys adds to the interest. The foundry boys claim to have a "cinch" on the other two games, and the office boys have not given up hopes of winning at leeast one of them, which will give them three out of the five.

ENGINE AND CAR DERAILED.

The engine and a car of a westbound Pennsylvania freight train went off at the derail at Upper Sandusky this morning. The tracks were not entirely blocked and traffic was uninterrupted.

DISMISSED FROM SERVICE.

The monthly merit and demerit bulletin issued by Supt. J. C. Sullivan, of the Wabash, states that during January an engineer was dismissed for overlooking a meeting point and causing a collision; a brakeman was discharged for unsatisfactory service; an agent for incompetency, and a switchman for indulging in booze. Demerit marks were given 324 employes and about thirty were considered worthy of especial notice for good service.

LECTURED ON AIRBRAKES.

Capt. H. M. Deihl, of the Pennsylvania, delivered a lecture to railway men on the use of airbrakes at the Y. M. C. A. Rest House in Conway last Tuesday and another at the Y. M. C. A. rooms in Allegheny Wednesday evening. At each lecture the attendance was good. Capt. Deihl is arranging to have some charts made to be used on occasions like those of last week. When out on educational tours with his airbrake instruction car he does not need charts.

WILL BE BIG EVENT.

The twelfth annual dance of Fort Wayne lodge, No. 136, Brotherhood of Railway Trainmen, promises to equal in brilliancy and pleasure those which preceded it, which were among the most pleasant affairs of their kind of the season in which they were given. The coming ball will be one of the first social functions at the new Mulqueen dancing academy, in the Minuet building at 121 East Washington street. The demand for tickets is good.

CELEBRATED HIS BIRTHDAY.

Ernest Lenz, the well known Pennsylvania shopman, was sixty-three years old yesterday and in honor of the anniversary the members of his family gathered at his home and enjoyed a big dinner. Mr. Lenz will round out forty-one years in the employ of the Pennsylvania in May. He commenced work in the shops in 1868, and has been there constantly since.

WILL INSPECT ENGINES.

Traveling Engineer A. S. Mead and Boiler Foreman Charles Zollinger, of the Wabash, will go to Ironville tomorrow and later to Pittsburg to inspect some engines that are to be turned over by the Wheeling and Lake Erie to the Wabash company, after being leased by the former company two years.

SCHALLENBERGER AT WORK.

Stephen Schallenberger, foreman of Pennsylvania car inspectors, who fell August 10 while painting his house and broke one of his legs, resumed his duties this morning. He is still a little lame, but gets around fairly well.

EYE BURNED BY CINDER.

A. R. Jay, chief car inspector at Valparaiso for the Pennsylvania, is in the city taking treatment for a badly burned eye, the result of getting a hot cinder in the optic. Mr. Jay was formerly employed here.

INDUSTRIAL NOTES.

F. J. Smith is a new hostler helper at the Pennsylvania coal docks.

George W. Shirey and John M. Cook have taken employment in the Pennsylvania machine shop.

R. E. McNally, the Wabash switchman, is taking a lay off to attend to some private business.

Machinist Archie Lerch, of the Pennsylvania shops, is off duty on account of the serious illness of his wife.

S. Gausapole, a boilermaker at the Pennsylvania round house, was called to Portland yesterday to repair a G. R. & I. engine.

Assistant Foreman E. E. Greist, of the Pennsylvania machine shop, was the guest of friends at St. Joseph, Ind., over Sunday.

John C. Eckert left over the Wabash this morning for Hot Springs, Ark., to take a course of treatment at the sanitarium.

A. A. Miller, a Pennsylvania passenger engineer, and his wife and daughter were guests of friends in Delphos, O., over Sunday.

W. L. Cress, a night switchman in the Wabash yards, has taken a two weeks leave of absence and gone to Cromwell to visit relatives.

F. Learch, pipefitter at the Pennsylvania round house, cut one of his hands on a boiler jacket yesterday while at work about an engine.

Martin Schmidt, who had a finger hurt two weeks ago, was able to report for duty at the Pennsylvania planing mills this morning.

General Supt. S. E. Cotter, of the Wabash, passed through the city in his private car, on train 28, this morning, en route to the east.

B. F. Sarver, foreman of the Pennsylvania boiler shop, returned home this morning. He had been on a business trip to Altoona for the company.

E. C. DesPrez, the crane signal man at the Pennsylvania erecting shop, has recovered from injuries he received a few days ago and is at work again.

John Rupp, who was hurt, and A. F. Huxoll who was sick, resumed their duties at the Pennsylvania blacksmith shop this morning, after an absence of a week.

W. S. Bunnell, of the Hanna-Brackenridge company, and his wife left Saturday night on a pleasure trip to Arkansas. They expect to be absent three weeks.

Oscar Palmer, freight agent at Chicago for the Nickel Plate, was in the city yesterday, calling on his old friends. Some years ago Mr. Palmer was located at New Haven.

Wm. Smith, who has charge of the big drive wheel lathe in the Pennsylvania erecting shop, spent Saturday at his father's farm, assisting in the annual slaughter of hogs for family use during the coming year.

The Nickel Plate has abolished the dispatchers' office at Leipsic on account of the falling off of business. This office is maintained only in very busy seasons. Three men are affected.

George Hautch, chief engineer at the Pennsylvania power plant, was taken ill this morning with symptoms of the grip and had to knock off work and go home.

General Manager A. Z. Polhamus, of S. F. Bowser & Company, has returned from a business trip to some of the eastern cities, including Toronto, Ont.

E. M. McLish, M. Wefel and P. J. Alt, who were absent from the Pennsylvania boiler shop several days on account of accident or sickness, reported for work this morning.

D. M. DeBurn, the Wabash yard engineer who lost his wife by death a week or two ago, will go to Indianapolis tomorrow to spend a few days with his sister before he reports for duty on the road.

The Wabash has dropped a brakeman from the crews of local freight trains 74 and 75, between Peru and Lafayette, and hereafter there will be only two instead of three brakemen on those trains.

William Driftmeyer, a construction man, left today to set up some electric machinery that was built at the Fort Wayne Electric works. Ed Fisher, another construction man, is in after erecting some machinery.

Idle cars are on the increase on the lines in this part of the country. A passenger on the Nickel Plate Saturday said that many of the sidings between this city and Chicago are full of them. He estimated the number at 800.

Mrs. J. W. McCarthy, wife of the Pennsylvania passenger engineer, went to Chicago today to visit friends a week. Passenger Engineer and Mrs. John Parrish will go there tomorrow to attend the automobile show and visit friends.

Dennis Collins resumed his duties at the car shop office of the Pennsylvania this morning, after being sick a week. Louis Gronau, who had been acting as janitor during the absence of Mr. Collins, has resumed his duties in the planing mills.

The report of Treasurer J. W. Evans, of the Fort Wayne Electric Relief union, shows the association to be in good shape in a financial way. There were $1,045.25 on hand, $588 being in the general fund and $456.25 in the burial fund. The association pays a sick benefit and gives to the family of deceased members $100.

Captain Driesbach, of company D, has informed the Lake Shore officials that the company will not go to Washington to attend the inaugural on March 4 and the railway has decided to not run a special train from this city on that occasion, as announced a few days ago.

J. W. Buckley, for some time employed as a helper in the Wabash boiler shops, will take a position as a motorman with the Fort Wayne and Wabash Valley Traction company. He will probably have a job on the city lines. Albert Ayers, a mechinists' helper at the Wabash shops, has also resigned.

W. H. Moeller, Frank B. Conners and A. F. Toenges, Pennsylvania shopmen, are sick and off duty and Hammersmith Edgar Szink, who had been off duty on account of the illness of his sister, reported for work this morning. Machinist F. W. Mennewisch who had a hand burned several days ago, also reported for work this morning.

J. B. Berghame, a traveling representative of the Westinghouse company, is spending a day or two in the city, with the railway men. Mr. Berghame travels all over the country explaining to the employes of the railways who use the Westinghouse inventions how to handle them. He was formerly a locomotive engineer on the Pennsylvania, east of Pittsburg, and has a number of acquaintances among the railway men in Fort Wayne.

PLACING EXTRA CHEMICALS.

To Be Installed on Three Hose Wagons of Fire Department.

In order to lessen the work of the men and horses of the chemical at the No. 3 fire station, three of the department's hose wagons are being equipped with thirty-gallon chemical tanks and within a short time the regular chemical will not have to answer every call. A tank has already been installed on the wagon at the No. 4 house and that of No. 8 house is now in the workshop. The other tank will probably be placed on No. 7's wagon.

NEW BREAD NOW CAUSES STOMACH DISTRESS AND MISERY

You Like It But Don't Dare Eat It for Fear of Indigestion.

You can eat anything your stomach craves without fear of a case of Indigestion or Dyspepsia, or that your food will ferment or sour on your stomach if you will take Diapepsin after eating.

Your meals will taste good, and anything you eat will be digested; nothing can ferment or turn into acid or poison or stomach gas, which causes Belching, Dizziness, a feeling of fullness after eating, Nausea, Indigestion (like a lump of lead in stomach), Billousness, Heartburn, Water brash, Pain in stomach and intestines or other symptoms.

Headaches from the stomach are absolutely unknown where this effective remedy is used. Diapepsin really does all the work of a healthy stomach. It digests your meals when your stomach can't. Each triangule will digest all the food you can eat and leave nothing to ferment or sour.

Get a large 50-cent case of Pape's Diapepsin from your druggist and start taking today and by tomorrow you will actually brag about your healthy, strong Stomach, for you then can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and Gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

Don't think because you may have no friends, that you can't get money when you need it. It's not policy to ask friends anyhow.

We will advance you any amount up to $100, if you own furniture, a piano, horses and vehicles or stock, and the property remains in your possession at the same time.

Small loans on your own note also, if you have a good steady position.

The charge is reasonable and the terms easy. Pay the money back in small weekly or monthly installments or to suit your convenience, and if you pay up before the time contracted for, you get a liberal rebate.

Courteous attention whether you call to borrow or simply inquire, and it will be private and confidential.

THE MARKETS

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, Ill., Feb. 8.—Wheat for May delivery touched a new high record mark for the season when it sold here today at $1.11⅛ per bushel. This point was reached on initial transactions after which prices eased off a trifle on profit taking. The previous high point was $1.11, recorded on December 4. The bullish sentiment was due to an advance of 1 penny in the price of wheat at Liverpool and to a predicted cold wave for the winter wheat belt in this country. Owing to the fact that a large part of the fall sown crop is now without snow protection a sharp drop in temperature, it was claimed, is liable to seriously injure the growing grain. Prices at the opening were ¼@⅜c to ⅝c higher compared with the previous close. May opening at $1.10⅝ to $1.11⅛. During the early part of the day May held within the opening range.

The opening high point was surpassed during the last half of the day when May advanced to $1.11¾ on a fresh burst of bullish enthusiasm. This high level, however, was maintained only for a short time, prices declining nearly one cent in only a few minutes on selling by a leading holder. May dropped back to $1.10½. The market closed about steady, with May ⅛c higher at $1.10⅝@1.10¾.

The bulge in wheat caused considerable strength in the corn market despite favorable weather for the movement. An advance of 2¼d at Liverpool had a bullish influence. May opened ⅛c to ¼@⅛c higher, at 65⅜@65⅝c to 65⅜c and for a time held within that range.

The high point for May was reached at 64c. The market closed steady with May up ⅛c at 63⅝@63⅞c.

Notwithstanding the strength of wheat and corn, the oats market was barely steady and the volume of trade was exceedingly small. May opened a shade higher at 51⅞@52c and sold at 52c.

Provisions opened steady, but weakened on selling based on the liberal stocks af provisions in this country. Prices at the opening were a shade lower to a shade higher, compared with Saturday's final quotations.

The Close.

Prices at the close were as follows:

Wheat—May, $1.10½@1.10⅝; July, 89¾c; September, 95¾c; December, 96⅛c.

STOCKS AND BONDS.

The Day on Wall Street.

New York, Feb. 8.—Opening changes in prices of stocks today were quite evenly divided between small gains and losses. The dealings were light. Denver & Rio Grande preferred advanced 1½ points, and Reading and Peoples Gas ¾, while Denver & Rio Grande, Kansas & Texas preferred and Brooklyn Transit declined large fractions.

Prices dropped a fraction in spots and then rallied to a higher level than at the beginning of trading. Union Pacific, Reading, Missouri Pacific, Chesapeake & Ohio and the Denver & Rio Grande stocks covered the widest range. Northwestern and American Sugar lost a point.

A few individual stocks showed strength but the general tone was heavy and lethargic. Peoples Gas advanced 2 points, Wheeling & Lake Erie 1½, and Western Maryland and Sloss-Sheffield Steel 1. Colorado & Southern first preferred, United States Realty and American Cotton Oil declined 1, National Lead preferred 1¼, and Westinghouse Electric first preferred 2. Bonds were firm.

Increasing firmness was shown in the stock market and for a time there was some show of activity. Reading and American Smelting were bid up 1¾, and Union Pacific, Southern Pacific, St. Paul, Norfolk & Western, Erie first preferred and Amalgamated Copper 1 point.

The market maintained its strength, the rise in Consolidated Gas having a good influence. That stock rose 3¼. General Electric 2¼, and Chesapeake & Ohio, Denver & Rio Grande, and Anaconda, 1 point.

The market closed firm and dull. Prices continued to move upward, but the rise was slow and added but little to earlier gains. Peoples Gas got up 3⅝ points, Reading 2⅜, National Lead 2⅜, Interborough Metropolitan preferred 1½ and New York Central 1. There were some slight concessions in the late dealings.

THE MONEY MARKET.

New York, Feb. 8.—Money on call, steady, at 2½@2¾%; ruling rate, 2½%; closing bid, 2½%; offered at 2¾%.

Time loans, easier; sixty days, 2¼@2¾%; ninety days, 2¾@3%; six months, 3@3¼%.

Prime mercantile paper, 3½@4%.

Sterling exchange, easy, with actual business in bankers' bills at 484.75@484.85 for sixty day bills and at 487.10 for demand.

Commercial bills, 484½@484¾.

Bar silver, 52¾; Mexican dollars, 41.

Government bonds, steady; railroad bonds, strong.

LOCAL MARKET EPITOME.

With eggs going on the wholesale market at 25c and 26c per dozen, the consumption has grown much heavier with the result that there were good demands for the article this morning. Demands were also good for chickens and poultry with the prices on these latter lines running the same. The stimulation in the potato demand was quite as marked as for any other of the produce today, owing to the storage supplies that were put in last fall being depleted in many cases.

Said G. H. Crouse, of the commission house of G. H. Crouse & Co., this morning: "With favorable weather tomorrow the market will be fair, but we hardly look for a big market under any conditions. Demands will run good for chickens, eggs, butter and potatoes and everything will be cleaned up at the present prices."

The mark in the wheat market—$1.08 per bushel—is the highest in that line this season. The low price of the season was 84c back in the middle of August and since that time it has been a steady climb, with few deviations from the rise. Once or twice the market has dropped back a few cents, but it quickly regained its former place and went still higher. The last rise is just one of the series occasioned by the shortage about the country.

CITY BREVITIES.

Dr. C. M. Corns will leave soon for an extended eastern visit.

Prof. I. Bernhard is sick with a sore foot but will be all right in a few days.

Mrs. Mason Mellott, of 1435 St. Mary's avenue, is at the St. Joseph hospital suffering from a severe case of pneumonia.

Mrs. A. Mergentheim leaves today for New York, Boston and other eastern points to purchase styles for spring millinery.

F. M. Watkins, of Indianapolis, agent for the National Insurance company, has been visiting with friends here for several days.

A. W. Beaber has resigned as bookkeeper at the Rothschild Paper company. He was formerly in the treasurer's office under Treasurer Funk.

Mrs. William Weseman, wife of a clerk in the postoffice, submitted to an operation at the St. Joseph's hospital yesterday for intestinal troubles and is doing nicely.

An alarm from the home of Mrs. George, on Elm street, was answered by the fire department yesterday afternoon. The house was being fumigated at the time.

Miss Emma Lange has been removed to her home at 1126 Broadway from the Lutheran hospital, where she submitted to a serious surgical operation two weeks ago.

Ralph Feldenheimer has taken a position as traveling salesman for Louis Allen & Co., of Philadelphia, after resigning his place with S. Chaska & Co. here.

Miss Minnie Rosenthal, of the Rosenthal ready-to-wear store, went to New York yesterday to join E. M. Rosenthal and aid him in purchasing a spring line of goods.

The county institute held in the Elektron building Saturday was attended by teachers from Wayne, Adams, St. Joe and Washington townships and from New Haven.

George Brinsley, jr., is having Architect Wing draw plans for a residence to be put up on Broadway. Mr. Wing is also making plans for a St. John's Evangelical Lutheran church at Seward, Neb.

A special car bearing members of the Fort Wayne lodge, No. 14, I. O. O. F., will go to Ossian tomorrow evening, where the new Odd Fellows' home will be dedicated. The local degree team will confer the rites upon a class to be taken in then.

A letter from Elkhart, Iowa, is to the effect that triplets, two sons and a daughter, have been born to Dr. and Mrs. P. V. Ketcham, of that city. Dr. Ketcham left this city three or four years ago after having served as house physician at the ope hospital for a year.

The operetta, "The House that Jack Built," was presented in Hood's hall to a packed house at Harlan Friday night by the high school students there. It was a great success and was repeated Saturday evening. The productions were under the direction of Miss Lola Reichelderfer.

Having formed an acquaintanceship on his last visit to this city three years ago, Edward A. Pappert, a traveling man out of Rochester, N. Y., on his arrival here yesterday immediately looked up Sergeant Pappert and the two had a long visit together. The men are not related in any manner, but are especially attracted to each other because of the similarity of names.

F. Will Urbahns, of Fon du Lac, Wis., is in the city visiting with his brother, D. Ferd Urbahns. The Wisconsin man has been confined in a hospital at his home city for many weeks and for a time was in a critical condition after undergoing a serious surgical operation. He was formerly secretary of the local city waterworks department.

E. H. Bookwalter, of this city, today received a letter from his brother, J Ed. Bookwalter, who has been critically ill in a hospital at Halstead, Kas., that he had returned to his home in that city and was now able to be about some. A few weeks ago his condition was such that his life was despaired of, and another brother, Mayor C. A. Bookwalter, of Indianapolis, was summoned to Halstead J. Ed Bookwalter is postmaster and editor of a newspaper at Halstead.

STATE BOARD OF HEALTH DISCUSSES BACKACHE

The following article on "backache" is an editorial recently published in American Medicine, one of the foremost weekly publications of the regular school, edited by the venerable Dr. George M. Gould, who is probably the best authority in medical journalism today, is to the point and frank as it is convincing:

Backache.

We are glad to see in the monthly Bulletin of the Indiana state board of health an article on "backache," because this and many similar subjects greatly need ventilation. Dr. Hessler thinks backache especially needs pure air because he contends nine-tenths of the cases in which the symptoms occur are due to infected dust. To this theory of the etilogy we of course must disagree.

The Osteopath is reaping a harvest because the regular has been culpably neglectful of the needs of examination of the backs of his patients. Thousands of patients, if not millions, are today suffering from malformed, ill-shaped backs and curved spines, and are treated for every ailment to be thought of while neither practioner nor patient has the least idea of the true cause of the symptoms, and the back is never examined. (Just what the osteopaths have long been saying). These backs often present the astonishing picture and record of suffering extending over years or life times. One shoulder blade may be higher than the other; certain muscles are knotted and hard and bulging; certain others, soft or atrophic; the spines of certain vertebrae may protrude in a noteworthy prominence; others may seem to be wholly absorbed. A certain proportion of lateral curvatures are due to a peculiar axis of astigmatism which compelled life long head tilting with compensatory spinal curvature. **"It is when these troubles are beginning and still functional that the wise physicians' interference is needed. But what medical college teaches the art and science of examination of the back? Who thinks of it?**

Answering Dr. Gould's honest question, "What medical school teaches the art and science of examinging the back?" Dr. K. S. Seaman, osteopathic physician, 221 West Wayne street, says none but the osteopathic. No other practice takes any practical account of these departures of the spine and other bodily tissues from normal, healthful conditions as being the most common, the real first cause of disease, and as a corollary, the correction of these defects in the human machine as the best form of curing disease.

As Dr. Gould says: "These patients are treated for everything to be thought of without getting any relief, and why? Because it requires a mechanical treatment to replace a dislocated hip, shoulder or wrist. Would you not expect the same treatment for slightly misplaced bones in the spine? That malshaped spines are the direct cause of stomach, liver and bowel troubles, nervousness, headache, sciatica, etc., has been proven in thousands of cases treated and cured."

Your own case can be just as successfully treated. Phone 2904.

CITY BREVITIES.

Amos Listenberger was taken from his home at 1430 St. Mary's avenue Saturday afternoon and placed in the St. Joseph's hospital by Township Trustee Branning. Mr. Listenberger is suffering from stomach trouble and as he is seventy-two years old, it is feared he cannot live long.

A letter from Consul H. W. Diederich, at Antwerp, states that his son, Theodore, is in serious danger of losing the sight of both his eyes. Mr. Diederich was formerly a member of the faculty of Concordia college and his son was a student there at that time. After leaving here the son was made a captain in the army and while serving in the Philippines injured one of his eyes and the other was sympathetically affected.

Spring Casts Its Shadow Before!

HERALDING with their beauty the advance of Spring the new goods come trooping in. "Get ready!" is the cheery message they bring—and they really seem to warm the atmosphere with the hints they give one of sunny days to come. If you would have a friendly talk with Spring, make acquaintance with these new things as we show them, and as they come in, more and more each day.

Early Arrivals at the Dress Goods Department

The vanguard of spring dress goods arrived at this section last week. The weaves are gracefully soft and clinging, intended for the one-piece dresses which promise to be popular.

We direct especial attention to the line of **Wool Batistes,** which we marked to sell at **50c the yard.** All the new shades are represented in this line, which offers a remarkable value at the price.

Lausdowns, Wool Taffetas, Serges and Soft Epingles in the wanted colorings.

New Black Suitings, several new things to select from for the woman who has decided upon a black gown for spring.

Here, There and Everywhere Are Seen New Goods

Walk wherever you will, visit any department, and you will see the early blossoms of spring goods. We call especial attention to the

ITS TWENTIETH ANNIVERSARY.

Notable Occasion for Kreis Stolzenau On Thursday Evening.

On Thursday evening the twelfth anniversary of the organization of the Plattdeutcher Verein Kreis Stolzenau will be celebrated in the Saengerbund hall and a special program of music, songs and speeches has been prepared. The singing section has several of its best numbers on the program and the principal addresses will be given by Honfi William Freuchtenicht and August Schubert, sr. A new flag is to be presented to the order and it is now on display in the window of the Martin Greven Art store on Calhoun street. The presentation speech will be made by Miss Frieda Sundkuehler.

The complete program for the evening is as follows:

"All to the Good" .....Orchestra
"Orange Blossoms" ..... Orchestra
Singers' March ..... V. E. Becker
Singing Section Kreis Stolzenau.
Address.....Hon. Wm. Freuchtenicht
"Heimathrosen".....A. Opladen
Singing Section Kreis Stolzenau.
Anniversary Address .....
.....President Gustave Schubert
Flag Song ..... Richard Keugel
Singing Section Kreis Stolzenau.
Address and Presentation of Flag..
..... Miss Freida Sandkuehler
Address of Acceptance .....
..... President Schubert
Tableau, with singing of "Star-Spangled Banner" and "America."

The evening program will be concluded with a dance.

A COMMON COLD.

We claim that if catching cold could be avoided some of the most dangerous and fatal diseases would never be heard of. A cold often forms a culture bed for germs of infectious diseases. Consumption, pneumonia, diphtheria and scarlet fever, four of the most dangerous and fatal diseases, are of this class. The culture bed formed by the cold favors the development of the germs of these diseases, that would not otherwise find lodgment. There is little danger, however, of any of these diseases being contracted when a good expectorant cough medicine like Chamberlain's Cough Remedy is used. It cleans out these culture beds that favor the development of the germs of these diseases. That is why this remedy has proved so universally successful in preventing pneumonia. It not only cures your cold quickly, but minimizes the risk of contracting these dangerous diseases. For sale by all druggists.
